## GEETHANJALI COLLEGE OF ENGINEERING AND TECHNOLOGY (GCET) (Autonomous)

Geethanjali College of Engineering & Technology (Autonomous) has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Geethanjali lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. The college recognizes that the rapidly changing technological landscape would require young technocrats with an understanding of evolving technologies, but also with a global perspective. A major goal of Geethanjali is to impart a uniquely broad and interdisciplinary Engineering education of the highest academic quality.

Over the years since it was established, there has been dynamic progress at Geethanjali in all academic and research activities, and a parallel improvement in facilities and infrastructure, to keep it on par with the best institutions in India. The campus epitomizes the Geethanjali motto, "**Striving towards perfection**" in providing the best of infrastructure and ambience. Geethanjali keeps a keen eye on the current trends and innovations happening in the industry and offers learning methods, which are designed to meet the evolving requirements of the industry.

The Department of Civil Engineering was established in the year 2014 and currently the department offers an undergraduate program B. Tech in Civil Engineering with an intake of 120 students. The department is headed by Prof. Dr. K. R. C. Reddy with 30 years of experience in teaching. There are 4 Professors, 2 Associate professors and 20 Assistant Professors in the department.

### OBJECTIVE

This program enables the participants

- To create the awareness about advance technologies introduced in the civil engineering constructions.
- To enhance the knowledge of recent advances in the analysis and design of steel and concrete structures under static, dynamic and wind loads.
- To understand the latest trends in the making of cement concrete and other materials used in the construction.

### CONTENTS

- Advances in structural Engineering
- Structural Dynamics
- Concrete and its Admixtures
- Construction Technology
- Wind Engineering

### EXPECTED OUTCOMES

- An exposure to advance technologies and current practices in the construction industry.
- An ability to analyze and design the complex problems using modern tools.

### TARGET AUDIENCE

- Faculty members of Civil Engineering and Diploma institutions.
- Research scholars
- Professional Engineers
- Students of Civil Engineering

### IMPORTANT DATES

Last date for receipt of application: 20<sup>th</sup> JUNE 2018

Initiation to selected candidates: 21<sup>st</sup> JUNE 2018

STTP Dates: 25-29 June 2018.

### VENUE

Block III,  
Department of Civil Engineering,  
Geethanjali College of Engineering and Technology

### RESOURCE PEOPLE

- Prof. Pradeep Kumar Ramacharla, IIT Hyderabad
- Prof. G. Rajesh Kumar, NIT Warangal
- Prof. V. Bhikshma, UCE, OU, Hyderabad
- Prof. B. Dean Kumar, JNTUH
- Prof. K. R. C. Reddy, GCET
- Prof. P. Sreenivas Sarma, CBIT
