B.Sai Priya	17R11A0202	EEE	A	The Indian Government had introduced many schemes from more than past ten years for the welfare of the people. These Social welfare Schemes by the government helped people improve their financial situations. Few of the schemes by the Central and State government for the welfare of the country are Central Government Health Scheme -provides medical facilities for the central government employees and families, Beti bachao beti padhao - the government aims to give awareness towards women issues,Kalyana Lakshmi Scheme-provides financial assistance for the marriages to the poor people and PM Kisan Scheme-gives financial aid to the farmers. Statistics of the Indian Government shows that more than 50% of the Indian population are benefited by these social welfare schemes as several schemes are for the poop people living in rural areas. People are able to improve their financial status and are able to educate their children even in their time of poverty. In the year 2020, the economy of India has extremely got shut down due to COVID-19. the poor, middle class people suffered a lot due to the lock-down in the pandemic situation. The central and state governments came forward with several schemes for the farmers and the laborers. Farmers were most affected during the pandemic and the state governments came forward by different schemes such as direct selling and online purchasing. Even The laporers did not get work during the lock -down and people did not have enough money to feed their lives. The Government provided 10 kilograms of free rice and the other required items for the poor people. Ch Sridhar Reddy	17R11A0205	EEE	A	India is one among the developing countries in the world. India is moving towards the list of developed countries in all aspects. There are many governments which have ruled India over the years. There were many schemes which were announced by different governments. Among these some of them were useful and some of them were not useful. In these pandemic situation BJP government has announced a scheme named "One nation One ration", which has helped the people a lot and many who were unemployed during this pandemic have got something to eat rather than nothing. In the state of Andhra Pradesh the government has made corona disease under the scheme of "Arogyasree" which made many poor people who were victims of corona were treated at very nominal price which reduced the burden on the families. In the same way there are many other schemes which are not useful for people at all and instead they put their states in full of debts. For example there was a "Raithubandh" scheme in the state Telangana. Which was useful to only some extent of people. The farmers who work on the land for lease did not get benefitted in any way. This made rich people more rich and no change of position of farmers in the state, this made a serious impact on the economy of the state. Our second prime minister Lal bahadur Sastry has announced a slogan and scheme called "Jai Jawan and Jai kisan", which has helped a lot to farmers and soldiers. There were many other schemes which are useful and some of them are not useful to people, but now in India many states are trying to impose new schemes such that they get GDP to normal and make India strive towards success. M. L. R. Varun Na	17R11A0231	EEE	A	Yes. The Social welfare means nothing but public welfare. When there is progress in the living of middle class and backward people, then it is said to be the greater society. The greater the society is, the greater the country will be. Our honorable Prime minister, Narendra Modi introduced many social welfare programs like Swachh Bharat, Beti Bachao-Beti Padhao, De-monetization, etc. These influenced many people to participate in these schemes and make sure that backward people will be aware of these schemes. Also, our honorable Chief Minister, KCR introduced Haritharam(Save Green), which influenced even the celebrities to participate in these programs and make people aware of the advantages of saving green. Different staetes implemented different types of useful schemes and played their role in influencing people. Because of these schemes, employment is being provided to the unemployed. Also, the farmers who lost their yield in the floods are getting paid. A society in which the producer and consumer, both are satisfied in their living, it is called greater society. So many schemes were implemented and made our society greater. Yet, some other schemes should be implemented in the future. The social welfare schemes covers all aspects of people's problems and tries to offer a solution to them. So, implementation of social welfare programs help to build new India. These are schemes which are important to the society they have their own specialty in their own fields and their respective roles in their fields. schemes like these need to be increased and should be brought more often to the public to provide more and more economic stability to the people and to build a new India. The schemes which are brought by the government are meant to build India and to provide the people with enough stability in their life which is a great cause for any government to do.so I believe that India is thriving towards a whole new level, which is a great initiation from the government of India. Additional welfare measure systems are also uniquely operated by various state governments. I would like to mention some scheme's to help government. " National health insurances: There are a number of public and private health insurance companies operating in india which caters to the Indian middle class. For vulnerable Indians,the government has Ayushman bharat Yogna, which is a health insurance programme that has good coverage of health for serious injuries. But in this present pandemic situation of Covid government has to help many of middle class and poor people they are dying with lack hospitalisation so, government should take care about the people. K.Bindu	17R11A0276	EEE	B	SOCIAL WELFARE SCHEMES We humans are social animals which means that we lead our lives according to the rules of society.So a combined effort is needed to buil a new society. Government, which is elected by the people always strives to the improvement of the society.In the same way government of India launched many welfare schemes like Atal Pension Yojana,Pradhan Mantri Suraksha Bima Yojana . The main motto of these schemes is to improve the life style of the people who are below the poverty line.These schemes are successful only when the poor are benifited.But in between there are many obstacles which may be a threat to these schemes.One of them is corruption due to which the efforts of government are going in vain.If the corruption is controlled then with the help of welfare schemes the future of our country can be changed. Especially in a country like India where 70 percent of the population depends on agriculture these schemes are essential.These schemes gives an immense support to the farmers of our country to take forward the agricultural sector irrespective of natural calamities.Agricultural sector is the backbone of our country's economy. Whenever there is drop in the country's economy due to any calamities agriculture stood as a pillar and raised the economy.And the best example for this is covid 19 situation. So Social Welfare Schemes play an important role in building the future of our country as they encourage the people to lead their lives irrespective of the results .	Explained well.	8

Kannegulla Sai Li	17R11A0277	EEE	B	Social welfare schemes are one of the main scheme that is help to build new India. Social welfare schemes are essential to develop our country. It is the process that we can improve our social facilities. Because this schemes so many people get help in crucial period. Our country introduce around so many schemes for needy people. Our Prime Minister Modi introduce four social welfare schemes for deprived people. Social welfare schemes are utilitarian for so many needy people. This schemes are necessary for needy people. For example, Atal pension yojana scheme is aims to help unorganized sector to save the money. It is really useful process for workers. There is a another scheme called Prime Minsiter jeevan jyoti bima yojana. It is also useful scheme for middle class people. It is life insurance policy and it is beneficial scheme. So, our country introduces so many schemes for needy people. This type of schemes are really helpful for people and by this society can build new economical budget for every individual family. Not only country, individually schemes are introduce for every state by respective Cheif Minister. Due to this, we can develop or build new society and new culture in our country. Because of this type of schemes individuals and families can build their strength and they can become strong in economically and in health care also. KUMBAM SAI SR	17R11A0279	EEE	B	Title: " Do the Social Welfare Schemes by the Government help to Build New India" The Government will always introduce new government schemes for the development of the country. In the same way the government of India is also bringing up new government schemes for the development of India to Build a new and better developed country. Though there are many government schemes brought up the government like subsidy on the rice, gas, fuel, etc.,. This will help the people who are below the poverty line or low income families. But, in the same way, if the government is going to bring new schemes in the field of education then it will certainly be a breaking point towards the development of the nation. Because, if a person is going to be educated in a family then it lead not only to the development of that family, but also to the whole nation. The educational scheme should be based completely on the merit but not on other factors like reservation, income, etc. The merit should should be encouraged by providing Scholarships, fellowships etc.,. The government should encourage the technical graduates in establishing industries and entrepreneurship development in the form of easy financing and technology. Thus, by following these steps in the field of education it will certainly help in building new India because all the other schemes are though providing for the enlightenment of lower middle class people they have their own disadvantages. These schemes are deviating from the main purpose, but becoming a burden to the nation.	Check word repetition.	7

Rahul Kumar	17R11A0294	EEE	B	Title: "The Social Welfare Schemes by the Government help to Build new India." The Social Welfare Schemes by the Government help to Build new India because it represents ideas of many organisations which take part together for the development of the nation. Mostly these schemes are all about the development and progress of our Nation. As we all know "Swatch Bharath", which is one of the biggest social welfare scheme done by Government which made a huge impact on the development of the nation. Not only government but every individual should be involved to promote the schemes and bring awareness among the citizens. In the Swatch Bharath scheme it wouldn't have become a huge success of every individual wouldn't have taken part in it and because of which every citizen have knowledge about the need to keep our country neat and clean. Also Beti Bachao Beti Padao has made an impeccable mark in providing education and safety for all the girl children in our country. Where girl child has got the right to live and be educated with all the moral and financial support. Therefore, the Social Welfare Schemes by the Government helps to develop India and bring a positive impact on the citizens by which they can have knowledge on the roles they have as a citizen and the need to develop our Country. Susarla Bhavana	17R11A02A0	EEE	B	Schemes are the ideas and ideologies of the government and their representatives to help the needy people especially for the people of below poverty line. There are various schemes that are into act which are proposed by the central as well as the state governments. Some of them are the agricultural schemes, educational schemes, employment schemes, marriage scheme for the bride and many more. To explain in detail about these schemes and what are these, schemes are the ones that are given to the people without costing anything from them. This means that they are given for free to the people. To give a best example, we can consider the example of agricultural scheme. In agricultural schemes the farmers will be given money to purchase the seeds during the time of sowing seeds or they will be given seeds without costing anything from them. Such schemes are very good to implement and are more beneficial to the farmers as they are helped from bearing heavy losses. In the same way, the bridal scheme of the brides is also one of the good schemes that helps a poor bride as well as her family to bear the expenses. But, as a coin always has two sides, certain schemes also have their effect in the development of a country. The best example that can be quoted is the scheme of unemployed. In this scheme, the unemployed people or the youth are given allowances monthly by the government. Even though this scheme help the unemployed people to earn a penny, it is not earned by them through their hard work and intelligence. Such schemes would pull back a person from doing a work and makes him more lazy because he is getting money without any effort. This will even make him do wrong things like producing wrong proofs or certificates during verifications process which is an offence. Not only the scheme for the unemployed but there are many other schemes like this kind which the governments propose to fill up their vote banks. As a result, this will not help to Build New India. Hence schemes must be implemented which help in development of the country but not in the fall.	Add title, Avoid informal expressions and complex sentences	6

However , since a decade the government of India has started social welfare schemes for the welfare of the people and to eradicate poverty in India.Some of the schemes include 'beti bachao beti padhao', increasing wages of the farmers, free education to children of poor families, constructing homes for poor people and providing ration for food for very less prices to the poor people. These government schemes will surely help to build New India.The 'beti bachao beti padhao' scheme helps people to not put their daughters at home and provide them with education.This scheme helps in eradicating gender bias and bringing equality in the Country.The primary occupation of our country being agriculture,the increasing wages of the farmers will boost their confidence and they will continue to provide India with right amount of food.The free education and houses provided to poor families will help them in living comfortable lives and providing their children with education.This education will strengthen the youth of India to develop the country in the coming decades because they are the future of the Country. T.Bhavya	18R15A0227	EEE	B	From financial inclusion to health cares,these government backed schemes are helping to improve the overall quality of life for society. Indian government has implemented many schemes to indian citizens to help the financial situations but also contributed to the country's economy. The scheme called pradhan matri Jan dan yojana helps for poor for financial services such as credit, insurance,pension etc.. And another scheme called pradaan matri jeevan Jyothi bima it helps for Saving for bank holders and deth inscurase for nominee. And rashtriya swasthya bima yojana it provides health insurance for unorganised sectors . R. Srujan	18R15A0229	EEE	B	Do the Social Welfare Schemes by the Government help to Build New India?' India is a vast country with diverse people and occupations. Governance in India is striving towards perfection over the decades. Maximum number citizens in India belongs to below poverty line(BPL) category and surviving in unorganized sector. So the citizens of economically weaker sections need and prays for a helping hand. Hence, Government will always have the responsibility on their shoulders. Good Governance includes welfare schemes, removal of poverty and strengthening unorganized sector etc., Transformation of India always needs changing unorganized sector and modernization of organized sector. Government of India always keeps an eye on the organized sector which is the major production of the country's GDP in their welfare schemes and policies. Welfare schemes such as Pradhan Mantri Kisan Samman Nidhi (PM-KISAN), Pradhan Mantri Krishi Sinchai Yojana, National Mission For Sustainable Agriculture (NMSA) and e-NAM are some which strengthening and increasing GDP of the nation and helping to build new India. The schemes such as modification in MSME sector, Pradhan Mantri Suraksha Bima Yojana, Pradhan Mantri Ujjwala Yojana and Saubhagya, Ujala Scheme are empowering weaker sections including empowerment of women. Increasing the number of Self Help Groups(SHGs) in the country raised the empowerment of women. In my opinion, Yes Social welfare schemes helps to build new and modernized India. But, the theme of building new India not only requires introducing new welfare schemes but also needs perfection in implementing the scheme and monitoring the result. Both of them are the vital parameters for transforming India. The Government of India must pay interest on these parameters for better development in various sectors of the country by surveying through different commissions .	Avoid grammatical mistakes	7
