SUMMER INTERNSHIPS

Internship Completion Certificate

Date: 31/7/2020

To whomsoever it may concern,

We are glad to inform you that "**kandukuri vikas** " has been pursuing a **6 weeks** Remote internship on "**Machine Learning using Python**" starting from **5/25/2020**. We hereby confirm that **he/she** has successfully completed the mentioned internship as part of GOAL STREET INTERNSHIPS.

During **his/her** Internship, **he/she** had worked under well-rounded mentors from the Industry for training in the particular discipline. Additionally, "**kandukuri vikas** " has also played a crucial role in working on a live "Capstone" project alongside fellow teammates to exhibit exemplary coordination and skill, and at the same time, was able to apply valuable knowledge and experience in facilitating the completion of the Project. The project, namely, "**predicting NHL Players salaries**" stands testimony to the skills and knowledge obtained as part of their journey here at GOALSTREET.

Internships have been a great opportunity for any student to learn experience and evolve as a better professional in this ever-changing engineering stream. We, on behalf of RAYA Renewable Energy Solutions Pvt. Ltd., and GoalStreet Team, congratulate and wish you a bright career.

Botte Laxmi Bhavani Yadav

has successfully completed the online, non-credit Specialization

Python 3 Programming

This specialization teaches the fundamentals of programming in Python 3. We will begin at the beginning, with variables, conditionals, and loops, and get to some intermediate material like keyword parameters, list comprehensions, lambda expressions, and class inheritance. You will have lots of opportunities to practice. You will also learn ways to reason about program execution, so that it is no longer mysterious and you are able to debug programs when they don't work. By the end of the specialization, you'll be writing programs that query Internet APIs for data and extract useful information from them. And you'll be able to learn to use new modules and APIs on your own by reading the documentation. That will give you a great launch toward being an independent Python programmer.

Vinod Kumar** bearing Roll No. **18R11A0436** has successfully completed Internship in **"Arduino Programming"** and executed the project entitled **Smart Cooling System** during **13th April to 11th May, 2020**, under the guidance of Mr. Ch. Sandeep and Mr. M. Anand, faculty of Department of ECE. This was organized as a part of Centre of Excellence in IoT and Embedded Systems, Department of Electronics and Communication Engineering, Geethanjali College of Engineering and Technology. The student is punctual, hardworking and has shown keen interest to learn and apply the concepts.

Masapeta Harika

has successfully completed the online, non-credit Specialization

Python 3 Programming

This specialization teaches the fundamentals of programming in Python 3. We will begin at the beginning, with variables, conditionals, and loops, and get to some intermediate material like keyword parameters, list comprehensions, lambda expressions, and class inheritance. You will have lots of opportunities to practice. You will also learn ways to reason about program execution, so that it is no longer mysterious and you are able to debug programs when they don't work. By the end of the specialization, you'll be writing programs that query Internet APIs for data and extract useful information from them. And you'll be able to learn to use new modules and APIs on your own by reading the documentation. That will give you a great launch toward being an independent Python programmer.

- Python Basics
- Python Functions, Files, and Dictionaries
- Data Collection and Processing with Python
- Python Classes and Inheritance
- Python Project: pillow, tesseract, and opencv

RECOMMENDATION LETTER FOR Sumith Meesa

This will confirm that Sumith Meesa pursued his/her data Analytics Internship under Hash Analytic Global Internship Program with due diligence and hard work. This program is structured in a way, where all Interns are tasked with Assignment and project to build analytical Solution to solve some of the problems with employee and customer data to get valuable Insight, for better decision making.

During Sumith Meesa Internship tenure, he/she has displayed a unique ability to identify and solve problems. Sumith Meesa experience in Data Analytics and Visualization using python, Tableau and Google Analytics has add great value to the project as well as to other Interns. The individual is loyal and always places the welfare of Hash Analytic above all else.

Any Company considering this individual for employment has my most enthusiastic recommendation. The individual performance here is an indication that the individual is desired to achieve heights in his/her career and set a new record for future employers.

Sincerely,

Ashara

Dear Ms. [illegible],

Multipller Solutions, a company with registered office at Hyderabad, Telangana, is pleased to offer you a job as **Digital marketing and Voice Process Executive**. We trust that your hard work and our environment will help you to be among our most valuable team members.

Should you accept this job offer, per company policy you'll be eligible to receive the following beginning from your joining date:

- **Nature of Work:** The Company is engaged in providing end to end marketing solutions to hospitals, doctors and healthcare companies. Your role as **Digital marketing and Operations Executive** will include all activities that can help our customers grow, develop their brand, provide better customer service and other activities that benefit our customers.

- **Stipend:** Three months from joining date (expected to be 01-August-2021) will be considered as internship during which a stipend of Rs. 7000 per month will be paid. After completion of internship the salary package will be applicable.
  - The internship duration will be considered as part of the bond duration. Any unexpected delay in joining date of the associate or delay in examinations due to academic curriculum constraints (which don't prevail at the time of signing this offer letter) will extend the internship and service agreement end date accordingly.
  - As per academic curriculum, the program is expected to be completed by **01-August-2021** with no issues in joining the organization from 01-August-2021.
  - For **internship** a duration from **01-March-2021** till **31-July-2021**, stipend at rate of Rs 7,000 will be paid for availability of Six days a week.

- **Salary:** From **01-August-2021**, the associate will be paid annual gross starting salary of 2,40,000/- (and in Rupees Two Lakh Forty thousand only) subject to taxes as applicable.
  - For the first three months from **01-August-2021** till **31-October-2021**, monthly payments of Rs. 7,000 subject to taxes will be paid by the company.
  - For the first three months from 01-November-2021 till 31-January-2022, monthly payments of **Rs. 15,000** which includes a monthly bonus component of **Rs.3,000** subject to taxes will be paid by the company.
  - For the next nine months from 01-February-2022, monthly payments of **Rs.20,000** which includes a monthly bonus component of **Rs.4000** subject to taxes will be paid by the company.

  This gross amount also includes:
  - Performance based bonus of INR 15,000 which will be paid on **10th April 2023** after completion of Eighteen months of service with the company. These Eighteen months of service period does not include internship duration or notice period duration. In case the associate plans to leave the
