To,

The Principal,

Geethanjali College of Engineering and Technology,

Cheeryal.

(Through Proper Channel)

Respected Sir,

Subject : Request for permission to conduct FDP -Reg.

We are pleased to inform you that the department of CSE is planning to conduct five days Faculty Development Program on **"Mobile Application Development"** from 18-06-2019 to 22-06-2019. The FDP aims at bringing the faculty and research scholars together to exchange ideas and information on current research and have a practical experience in this field of Mobile Application Development and also equip the faculty with required knowledge to handle a course on Android Application Development for B.Tech IV year students.

In line with this, we request you to kindly grant us permission to conduct the FDP in collaboration with ICT Academy.

Thanking You Sir,

Okay, please go ahead

Yours Sincerely,

Associate Head-CSE

(Dr. G. Soma Sekhar)

It is likely to cost about Rs. 10K

Submitted to Secretary for approval

Cheeryal.

Respected Sir

Sub: Requesting budget approval for FDP-Reg.

The department of CSE is planning to conduct **FDP** on **"Mobile Application Development"** from 18th June 2019 to 22nd June 2019. We are hereby submitting the detailed budget required for the FDP for your kind approval.

S.N.	Item	Per Session/Day	Amount
1	Tea and Snacks for Participants	10 Sessions @ Rs.10 for 40 members	Rs. 4000/-
2	Working Lunch for participants	5 days @ Rs. 50 for 15 Members	Rs. 3,750/-
	Special Lunch for guests	5 days @ 100 for 2 members	Rs. 1000/-
3	FDP material (File, Note Book, Pen, Certificates, etc.)	30 Members @ Rs.40	Rs. 1,200/-
4	Banners, Bouquets for Resource persons	-	Rs. 600/-
	Expenditure to be met from College		Rs. **10,550/-**

Thanking you Sir

C.Esther Varma

FDP on **Mobile Application Development**

A Report on

FDP on Mobile Application Development

Objective: to provide the faculty with an understanding of Mobile application development

Outcome: Faculty worked on Mobile application development and deployment

Geethanajli College of Engineering and Technology has conducted a one week Faculty development program on **Mobile Application Development** .

After much discussion and deliberation within the faculty of CSE to recognize the recent advances in technology and its outreach for pursuing research and guiding the students to do project based learning, the faculty have come up with the need of organizing a one week faculty development program on the recent advances in computer science and information technology areas.
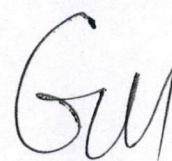

The FDP was inaugurated by Dr. Udaya Kumar Susarla, Principal, Dr.DSR Murthy, Head, Department of Computer Science and Engineering, **Ms.D.Kamatchi Devi,**Sr.Technical **Trainer,** ICT Academy
The keynote speech by Dr G.Udaya Kumar Susarla,has highlighted the concerns about the raising technological changes and the need for the faculty to adapt to these changes, he also advised all the faculty to take part and participate actively in the FDP..

Around 31 faculty has participated actively in one week FDP and has also worked on few projects given by the expert. she has covered following points in sessions.

Mobile Application Device platforms, Mobile Application Front end, Mobile application Back end and comparing native versus Hybrid applications.

Vote of Thanks was rendered Ester varma, Associate Professor, Dept of CSE, GCET.

In association with
IEEECS-GCET,CSIandISTE

ABOUT THE INSTITUTION

Geethanjali College of Engineering & Technology has been structured to take a quantum leap on the changing trends of technology. The need of setting up the college emerged when no other college could fulfill the aspirations of a student in his/her endeavor to acquire wholesome education. The college has its strength lying in its principles of providing the right learning environment for the student. The campus epitomizes the Geethanjali motto, "Striving Towards Perfection" in providing the best of infrastructure, ambience and quality faculty. The college is recognized as Scientific and Industrial Research Organization (SIRO) by the Directorate of Scientific and Industrial Research (DSIR) - New Delhi.It is NAAC accreditated with 'A' grade. Three programs, B.Tech.(CSE), B.Tech.(ECE) & B.Tech.(EEE), of GCET are accredited by NBA, New Delhi.

At Geethanjali, perfection is a passion.

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering was established in the year 2005 and currently offers an Under Graduate program B.Tech in Computer Science and Engineering with an annual intake of 240 students and 1 Post-Graduate program M.Tech in Computer Science and Engineering with an annual intake of 30 students.

The Department is headed by Prof. D. Sree Rama Chandra Murthy is having a total experience of 33 years in Teaching and Research. Accomplish career demonstrating consistent success as an administrator and educator at the graduate and post-graduate education levels. He is an effective communicator with excellent planning, organizational, and negotiation strengths as well as the ability to lead, reach consensus, establish goals and attain results.

There are 9 Professors, 14 Associate Professors, and 52 Assistant Professors in the department for UG. The department has 14 Programmers and 5 System Administrators to assist and maintain the computer laboratories. All the faculty members are encouraged to participate in Faculty Development Programmes, Conferences, Workshops, Publication of Research Papers and active involvement in R & D activity.

IoT with Python:

Python has its own importance in IoT. However, there are different other languages used in this purpose like Assembly, C, B#, C++, PHP, JavaScript, Java, Rust, and others. IoT has its own importance in Data Analytics, Wireless Sensor Networks, Big Data, Cyber-Physical Systems, and Machine Learning. This language is very focused on real-time processes and analytics.

Python is frequently used by developers as it is more flexible than Java or C. It has been a great resource for Web application development. It is best for IoT projects as it supports embedded programming. Python has achieved great traction in IoT as it is best for data-intensive developments, especially in managing complex data. In addition, Python source codes are very readable and compact due to its clean syntax. It works smoothly with small devices that have less memory and limited calculation strength.

R-Programming:

Over past several years R has garnered immense popularity among Data science practitioners and it is no surprise that R language is often as referred as lingua franca of Data Science! This Data Science with R course effectively covers basic of R, Statistical predictive modeling through various practical examples and how R will be used in Hadoop (RHADOOP)

Assistant Professor
Dept of C.S.E

A Report on

FDP on IoT Using Python and R programming, Introduction to Hadoop

Objectives:

The FDP is designed to provide Basic knowledge of IoT using Python, and R programming.

Outcomes: Problem solving and programming capability.

This was the one week FDP on IoT using python, and R programming, organized for faculty of GCET to explore the power and simplicity of python language . This FDP was appreciated by the all faculty, as they were able to add another programming language in their technical skill set.

The following were the resource persons and their topics:

1. IoT with Python by: Y.V.N Phani Kishore Assistant Professor Dept of C.S.E
2. Data Analysis Using R Programming by : J UMA MAHESH Assistant Professor Dept of C.S.E

Total 11 faculty have actively participated in this FDP. The speakers has covered following points in 6 days sessions.

How Python has achieved great traction in IoT as it is best for data-intensive developments, especially in managing complex data. In addition, Python source codes are very readable and compact due to its clean syntax. It works smoothly with small devices that have less memory and limited calculation strength. It is best for IoT projects as it supports embedded programming.

The Data Science with R effectively covers basic of R, Statistical predictive modeling through various practical examples and how R will be used in Hadoop.

The FDP was concluded by taking feedback about the programme from the participants which was followed by the issuing of certificates to all the participants by the HOD, Dept of CSE.

Annexure "A" Capacity Development Programme for staff and Students

1st Cycle

Before start of the semester	Activity 1	Two days introductory Workshop on PBL	Needed for Sustainability of PBL and for effective implementation	100% Administrators and Teachers training Selection of two subjects for Implementation
	Activity 2	Two days Teacher's training for Building Course Level PBL model	Needed for effective implementation	Course Level PBL model design with story board Assessment and Evaluation Plan
	Activity 3	One day Teachers Training on PBL and outcome assessment	Needed for NAAC and NBA Also, for PBL assessment and Evaluation	Attainment calculations and Matrix
	Activity 4	Teacher's PBL model Presentations	First comments on PBL models	PBL Pitch Preparation
	Activity 5	Final PBL model Presentation	Final Review on PBL pitch	PBL Pitch
	Activity 6	Two day Workshop on Research in PBL	Needed for documentation to find effectiveness of PBL	Introduction to Research in PBL Data collection Strategies
First Two weeks of the semester	Activity 7	Students counselling	100 % students counselling for career prospects through PBL	Students awareness about Importance of PBL
During the second- third week of the semester	Activity 8	PBL Pitch – Presentations by PBL Teachers in the class	Classroom presentation is needed to understand PBL Practice	Students awareness about PBL implementation and assessment
After One Month	Activity 9	First review on CLPBL	Two days depending on number of courses	Documentary checking Students Feedback
After One Month	Activity 10	Second review on CLPBL	After One Month after first review	Documentary checking Students Feedback
At the end of the semester	Activity 11	PBL day- Project Exhibition	One day per department	Evaluation of PBL models and students presentations on their work

				Identification of Potential Start Up Ideas
After the end of the semester	Activity 12	Research and Academic Outcome assessment and Mapping	Full day	Creating documentary evidences Feedback Suggestions of the new designs
	Activity 13	Research Paper/ patent/ Business proposal Writing	Intellectual Property	Starting PBL research Culture and entrepreneurship
	Activity 14	Attainment calculations	For NBA	Outcome Mapping and attainment calculations File for NBA/NAAC
	Activity 15	Boot camp Training	For staff and students	Incubation Process starts on Identified Projects or New Ideas

*Similar process will be executed for the 2nd cycle.

Other con-current activities to be conducted

Sr. No	Name of Activity	Resource Person	Time Required	Participants
1	4 Days Interaction Session with students & Teachers for Business Club , Presentation	Dr. S. S. Inamdar & Team	4 Days	Students , Faculty
2	Review Meeting with Principal & Management	Team from Vishwaniketan	2 Days in the semester	Faculty & Administrators
3	Continuous Assessment Norms	Team from Vishwaniketan	2 Days	Faculty & Administrators
4	Business Club Meetings	Dr. S. S. Inamdar & Team	Every Month	Students ,Faculty

Introduction to PBL workshop

The first workshop to introduce Problem Based Learning (PBL) to the faculty of GCET was conducted on 4th and 5th January 2020 in the college by Dr.Vikas Shinde. Fifty five (55) faculty from all departments attended the same. Dr.Vikas introduced the concept of PBL to the faculty and oriented the faculty about the importance of identifying the problem for a given course. The faculty prepared a problem canvas categorizing the different aspects of the identified problem. Dr.Vikas encouraged the faculty to present their work.

The faculty were divided into groups. Dr.Vikas the basic principles of PBL. The faculty worked on the PBL canvas for two days. Each group was asked to give a presentation regarding their canvas.

A Report on

PBL Workshop

Objective—Faculty can use PBL extensively as their primary instructional method

Outcome- Faculty able to identify a problem statement
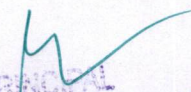

This was the two days' workshop on PBL organized for faculty of GCET. Total 11 faculty have actively participated in this workshop. The guest speaker: Dr.Vikas, Professor, Viswanikethan.
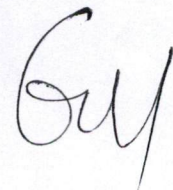

Project-based learning (PBL) is a model that organizes learning around projects.PBL can promote the development of critical thinking skills, problem-solving abilities, and communication skills. It can also provide opportunities for working in groups, finding and evaluating research materials, and life-long learning

He has covered following points in 2 days session

Any subject area can be adapted to PBL with a little creativity. While the core problems will vary among disciplines, there are some characteristics of good PBL problems that transcend .The problem must motivate students to seek out a deeper understanding of concepts.

The problem should require students to make reasoned decisions and to defend them. The problem should incorporate the content objectives in such a way as to connect it to previous courses/knowledge.If used for a group project, the problem needs a level of complexity to ensure that the students must work together to solve it.If used for a multistage project, the initial steps of the problem should be open-ended and engaging to draw students into the problem.

Two days workshop on

Design and Development of Course Level Project Based Learning (CL-PBL) Curriculum

Day 1	Time	Activities	Material needed
Session-1	10:00 am to 11:30 am	Revision of PBL and PBL canvas/ Recreation of PBL canvas/ Problem Identification	Original/New canvas/ Workbook and sheet for PBL canvass
Tea Break			
Session-2	11:45 am to 01:15 am	Principles and elements of PBL Curriculum Design Vishwaniketan PBL Models	Workbook and sheet for Curriculum Design Canvass
Lunch Break			
Session-3	02:00 pm to 03:30 pm	Designing a PBL Course	Curriculum Design Canvass, sketch pens and sticky notes of different colour
Tea Break			
Session-4	03:45 am to 04:45 pm	Designing a PBL Course	Curriculum Design Canvass, sketch pens and sticky notes of different colour
End of the day			
Day 2	Time	Activities	Material needed
Session-5	09:30 am to 11:30 am	Assessment Design	Curriculum Design Canvass, sketch pens and sticky notes sticky notes of different colour
Tea Break			
Session-6	11:45 am to 01:15 am	Rubric for Assessment	Curriculum Design Canvass, sketch pens and sticky notes sticky notes of different colour
Lunch Break			
Session-7	02:00 pm to 03:30 pm	CL-PBL Posters Presentation	Curriculum Design Canvass, sketch pens and sticky notes sticky notes of different colour
Tea Break			
Session-8	03:45 am to 04:45 pm	Empathy Map Creation and production of Learning Material	Curriculum Design Canvass, sketch pens and sticky notes sticky notes of different colour

CIRCULAR

Date: 21-05-2020

A One week National level Online Faculty Development program on "Introduction to Artificial Intelligence and Machine Learning" is organized by CSE Dept.as per the details given below

Date   :   25-05-2020 to 30-05-2020

Time   :   4:30pm to 6:00pm

Mode of Conduction: online (Link will be provided on 25-05-2020)

Topics: Machine Learning Algorithms

Resource-Persons: Dr.K.Srinivas ,Professor ,CSE Dept,GCET
                       Dr.Ramesh Babu ,Professor ,CSE Dept,GCET.
                       Dr.A.Sree lakshmi,Professor ,CSE Dept,GCET
                       Mr.J.Uma Mahesh,Asst.Prof,CSE Dept,GCET

Coordinator: Ms Ester Varma Assoc.Profesor, CSE Dept,GCET

All faculty members have to attend the same positively except on essential duties.

On

"INTRODUCTION TO ARTIFICIAL INTELLIGENCE & MACHINE LEARNING"

FDP Dates: 25th-30th MAY, 2020

SESSION TIMINGS: 04:30 PM - 06:00 PM

DAY WISE SCHEDULE

Dates	Topics
25/5/2020	1. Introduction to Artificial Intelligence 2. Machine Learning, Categories of ML 3. When and Where AI & ML are Useful 4. Basic Statistics
26/5/2020	1. Supervised Machine Learning Algorithms 2. Decision Trees 3. Naive Bayes Classifier
27/5/2020	Machine learning algorithms: 1. Regression 2. KNN 3. K-means algorithms
28/5/2020	PCA Method in Machine Learning Algorithms: 1. Introduction to Dimension Reduction 2. Dimension Reduction Techniques 3. Principal Component Analysis 4. PCA Algorithm 5. Practice problems based on principal component analysis 6. Implementation of Principal Component Analysis with NumPy.
29/5/2020	1. Computer Vision Introduction. 2. Image Classification and object detection. 3. Depth Architecture of Convolutional Neural Network. 4. Small Introduction to CV2 package using Python. 5. Future Research scope in Computer Vision Techniques.
30/5/2020	1. Machine learning on cloud: benefits 2. Machine learning as a service: providers 3. Machine learning on AWS: demonstration Case study 1: Amazon Recognition for image and video analysis Case study2: Amazon Transcribe: Speech Analysis Case study3: Amazon Sage maker: fully managed machine learning modeling with Jupyter.

"Introduction to Artificial Intelligence and Machine Learning"

25th -30th May, 2020

Organized by

Department of

COMPUTER SCIENCE AND ENGINEERING

TENTATIVE SCHEDULE:

Date	04:30PM to 06.00PM	Resource Person
Day-1 (Monday) 25/5/2020	Introduction to AI ,ML and Deep Learning	MrHari Prasad
Day-2 (Tuesday) 26/5/2020	Artificial Neural Networks	Dr K Srinivas
Day-3 (Wednesday) 27/5/2020	Machine Learning Algorithms	DrCh Ramesh Babu
Day-4 (Thursday) 28/5/2020	Machine Learning Algorithms	DrCh Ramesh Babu
Day-5 (Friday) 29/5/2020	Machine Learning –Dimensionality Reduction	Mr J Uma Mahesh
Day-6 (Saturday) 30/5/2020	Machine Learning on Cloud	MrsA Srilaxmi
"The purest case of an intelligence explosion would be an Artificial Intelligence rewriting its own source code. The key idea is that if you can improve intelligence even a little, the process accelerates. It's a tipping point. Like trying to balance a pen on one end – as soon as it tilts even a little, it quickly falls the rest of the way." ~**Eliezer Yudkowsky.**

A Report on

One week National level Online Faculty Development program on Introduction to Artificial Intelligence and Machine Learning

One week Faculty Development Program on "Introduction to Artificial Intelligence and Machine Learning" was conducted by the Department of Computer Science and Engineering from 25-05-2020 to 30-05-20.

The topic was selected so as to promote awareness in the contemporary technologies in the IT Industry. The FDP aimed to provide opportunities to faculty members and research scholars so as to enrich their teaching skills and research ideas in machine learning and their applications in image processing, natural language processing and other domains. The program also intended to develop the knowledge of participants in simulation with advanced software in the relevant fields of computer science. There were 545 participants from various institutions who included faculty members and research scholars.

Topics covered on five days

Day 1 - Introduction to Artificial Intelligence ,Machine Learning, Categories of ML ,When and Where AI & ML are Useful ,Basic Statistics

Day 2- Supervised Machine Learning,Decision Tress, Naive Bayes Classifier

Day 3- Regression,KNN,K-Means algorithm

Day 4- PCA Method in Machine Learning Algorithms: Introduction to Dimension Reduction ,Dimension Reduction, Techniques,Principal Component Analysis , PCA Algorithm, Practice problems based on principal component analysis , Implementation of Principal Component Analysis with NumPy.

Day 5- Computer Vision Introduction:Image Classification and object detection, Depth Architecture of Convolutional Neural Network, Small Introduction to CV2 package using Network, Python. Future Research scope in Computer Network, Vision Techniques

Day 6- Machine learning on cloud: benefits, Machine learning as a service: providers, Machine learning on AWS: demonstration, Case study 1: Amazon Recognition for image and video analysis , Case study2: Amazon Transcribe: Speech Analysis , Case study3: Amazon Sage maker: fully managed machine learning modeling with Jupyter

Vote of Thanks was rendered Ester varma, Associate Professor, Dept of CSE, GCET.
