The main aim of this program is to get aware of various issues and concerns that impact girls and women. We should think of build a safety environment towards women and able to get insights to promote safety aspects so that we can create grass roots voice of change for safety. This TTT is five day program; each session is for three hours and after all the sessions an assessment test was conducted. The majority discussions were about safe space and safe guarding of women and creating positive thought process to build the self-confidence. And they guided the students not to hesitate to take support of police or to take legal procedures.

They discussed about Child welfare, Women welfare and Save the Child. Speakers explained with examples and flow charts which help students to understand the situations. All the sessions were very informative and motivational to support and help the woman and needy.

Speakers interacted with the students by posing questions like what are the measures of women safety and volunteering, and made them very active to participate this kind of events. Twenty five students participated the event, But nineteen students only got certificates base on daily assessment
