Dear Prof P Chandrasekhar Reddy ,

We from TalentNext sincerely thank you for the hard work and dedication displayed by you in getting certified in Wipro's **Project Based Learning** framework in Java-J2EE , and your readiness in imparting the learning to your students.

With thanks and gratitude, we share with you, your **Wipro Certified Faculty (WCF)** certificate.

Congratulations for this well-deserved achievement, and many thanks for your continued support.

The certificate is a dark-themed document with the TalentNext logo on the top left and the Wipro logo on the top right. The main title reads "Digital Skills Readiness Program" followed by "Wipro Certified Faculty". The recipient's name, "P. Chandrasekhar Reddy", is prominently displayed in the center. Below the name, it states that he has successfully passed the TalentNext certification assessment and is recognized as a mentor for project-based learning (PBL) in Java J2EE. The certificate is signed by Anurag Seth, VP & Head - Talent Transformation, and P B Kotur, General Manager & Head - TalentNext.

Best Regards,

Dear TPO/Professors,

Warm Greetings and welcome to this year **TalentNext** student Engagement program. Hoping to have a successful learning journey for your students. Find below the next steps and the process flow to take this journey forward. Requesting you to kindly go through the below and proceed accordingly.

1. Superset Registration

- Registration of Students on superset portal as per the guidelines provided by Wipro Campus Team.
- Mail regarding the same communicated to college TPO on 4th April and this process **closes on 14th April**.
- Any issues at this stage to be informed with Wipro Campus Team [TA] and they will help and guide on the same

2. Nominations & Training Schedule

- Once the superset registration process is completed, Wipro Campus team will share the master superset registration data with the respective college

Batch Training Schedule

- The WCFs should prepare the training schedule and update the same on the Batch Schedule template [Template attached].
 - To follow the process as explained during the orientation call.
 - Only WCF to be assigned a batch for training and each batch – per WCF should not exceed a max of 150 students.
 - Start Date can be on the **1st week of May**. In case of any specific requirement or concerns on this change, provide justification on the remarks.
 - Phase 1 training end date can be max 2nd week of July and for Phase 2 can be end of July
 - All assessment dates to be clearly mentioned and ensure that assessments are planned only on Week Days [Mon-Fri]

- In case of any change on these dates, it should be intimated to us at least before 3 days so as to plan accordingly.
- If there are multiple batches from your college taken by multiple WCFs, ensure that all batches will be having the same assessment dates.
- **Student Nomination with WCF and Batch Mapping**
 - All the batches nominations of students should be filled in this nomination template [Template attached]
 - Superset ID for each student is mandatory and should be provided in the 1st column. The same will be used to provide PBLApp access. You can get the superset ID of your registered candidates from the master shared to your college from our campus team.
 - Against each student, provide the batch number and the WCF assigned. For the batch numbers, use only Batch 1, Batch 2 etc..

Note: Both the Batch Schedule and Nomination should be as per the template provided and should reach us on or before **18th April** to take it forward.

3. **Pre-Checks, Approval, Enablement**

- Post receiving the Batch Schedule and nominations, the TalentNext team verifies and validates the same.
- Any clarifications required will be taken up and confirmation on the same will be provided.
- Once the list, according to the WCFs mapped to the training, PBLApp access to the professors [WCF] will be provided first. Separate communication to the WCF on the same will be sent.
- PBLApp access to the nominated students would be activated 2 days prior to the start date of the training and will be communicated to the college TPOs and WCFs.
- No Direct communication from TalentNext team to the students will happen.
- Assessment pattern and its related details will be shared with your separately in another mail.
- Guidelines to kick start the training program will be sent along with the confirmation/approval mail post verification of the schedule and nomination.

4. **Training Plan**

- WCF's to train students on below modules
 - Phase 1 : JAVA J2EE modules
 - Phase 2 : Hibernate, Spring, Spring Boot, REST Web services, AngularJS

PRINCIPAL

Geethanjali College of Engineering and Technology
(Autonomous)

Geethanjali (V), Keeran (M), Madhav (M)

Access will be enabled only to students who cleared all 3 milestones of phase 1
Value added service (minimum 2 milestones cleared candidates)

- o TalentNext team will conduct Logical Reasoning, Quantitative Aptitude, Verbal Aptitude test for any two milestone candidates
- o Based on the results, WCF to guide and help the students in upgrading their soft skills.

If there are multiple WCFs in your college, requesting you to identify one WCF as a SPOC and inform us the same. All communication from us will be sent to the TPO and the identified SPOC.

For any queries/clarification/concern regarding this student engagement, feel free to write to talent.next@wipro.com

Dear TPO/Professors

Hope you are working on preparation of the training schedule and nominations. Since there is a delay from the campus team in sharing with you the master Superset Registration data, we hereby would like to inform you that we had extended the last date of sharing the nominations and schedule till **20th April** [Wednesday].

You will be receiving your college superset registration master data by today.

Kindly ensure the below while preparing the schedule and nominations

- Create the schedule and the nomination list as per the template shared in our earlier mail.
- Cross check with the superset master and ensure all the nominated candidates have their correct superset ID
- Ensure that the valid correct E-Mail ID is provided against each student
- Ensure there is no duplicates of the student data
- Ensure that the batches are assigned only to WCFs

Note: Make sure that you send us both the training schedule and the nomination list only as per the template shared to you on or before **20th April, 6.00pm** without fail.

Kindly ignore this mail, if you had already done the same

Thanks and Regards

The students need to follow the same process as you

1st time opening the URL on the browser

- o On opening the link for the 1st time on a browser, you will be directed to a security login page. As a 1st time user, you need to do a self-registration. Find the details in the attached Initial Registration Process guide. You should register with the same E-Mail ID that is given in our records. Your E-Mail ID with us is given below.
- o Self – Registration is an one time activity.
- o Post self-registration, you need to do a Sign In with the registered E-Mail ID and password.
- o On Subsequent opening of the PBLApp URL, you will directly land on the home page of PBLApp with a login button. Which you can use on the regular basis.
- o In case, you had cleared your browser history, then you will again get the Sign-In page

Regular Usage

- On giving the PBLApp URL <https://talentnext.wipro.com/PBL-App>, you will land straight to the home page of the PBLApp
- Click on the login button and follow the below 2 step authentication process. [Details with screen shot given in the PBLApp_GA_SignIn Guide]
- The QR code will be displayed only for the 1st time during the registration and for subsequent logins, should open the Authenticator app and get the recent 6 digit code.
- Inform the students that they should not delete/uninstall the Google Authenticator App.

Note :

- o The credentials given to the students are only for their own use and should not be shared to anybody else.
- o The credentials of WCFs to be used only by the WCF professors and not sharable.
- o All assignments and projects to be reviewed by the respective WCF and not required to be uploaded to us.
- o We will be tracking on the account usage and their learning progress. Necessary reports will be shared with you from time to time.
- o Keep us informed on any change in dates of learning phase milestones. Inform us before 2 days of actual assessment to get the links ready.

For any queries, the 1st point of contact for the students will be their batch WCF. Direct mails from students will NOT be encouraged. In case of any support/clarification, the WCF can write to us with a consolidated details.

For any clarifications and support, feel free to write to talent.next@wipro.com

Wipro | Launch of TalentNxt Program FY'22

Dear Academic Partner,

Greetings from Wipro!

We hope you are safe amidst the prevailing COVID-19 pandemic situation.

At Wipro, we thrive to build a world where continuous growth & learning is not just a concept but an inherent part of the way we work. TalentNext, a unique collaborative initiative, has been launched based on the same notion. The objective of the program is to bridge the industry-academia gap by qualifying the faculty members to provide relevant foundational technical training to their students, allowing the latter to launch a successful career with top IT companies.

We will be launching the Wipro TalentNext program for FY'22 to all the eligible TalentNext Engineering Colleges on **21st June, 2021**. Each Wipro certified faculty can train **maximum of 150 students** who will undergo Java J2EE training through the Project Based Learning approach. This program will help the student to develop skills through self-learning modules and mentor support to make them future ready.

The key to success of this programme lies in collaboration – between Wipro and your institute. This approach will redefine the learning paths for both faculty members and students to nurture an environment of continuous learning. It will help hundreds of students find a promising opportunity in the burgeoning IT industry.

The details regarding eligibility criteria, nomination process and methodology are mentioned below:

<p><u>Eligibility</u></p>	<ul style="list-style-type: none"> ✓ BE/B.Tech students who would be graduating in the year 2022 only ✓ Wipro TalentNext associated colleges which have WCF (Wipro Certified Faculty) ✓ CS,IT and Circuital branch students are only eligible for the TalentNext program ✓ Each WCF Trained Faculty can nominate/train a maximum of 150 students ✓ Students should have a minimum of 60% or 6.0 CGPA and above in 10th, 12th and Graduation
<p><u>Nomination Process</u></p>	<ul style="list-style-type: none"> ✓ College to shortlist students based on the eligibility first and fill the details in attached excel sheet ✓ Email id cannot be changed once registered ✓ Please ensure to nominate only serious students to avoid any back out ✓ College to map the final registered students with their training batch, schedule, WCF tagged and share the list in the required format to Wipro TalentNext team marking the respective LCL. ✓ PBLApp access will be enabled for all registered students finalized by college and Wipro TalentNext team ✓ Milestone assessments will be enabled as per schedule, students should score 60% and above in each milestone

Geethanjali College of Engineering and Technology

- Kindly look into the category of students who were **Absent** during the assessment and ensure that the students take the assessment without fail.
- Check for the # of students being passed in each milestone and ensure that the student prepare well for the assessment.
- Ensure that the students prepare well for the assessment and so clearing the assessments. Each student should secure 60% for clearing an assessment.
- One Re-Test per milestones can be scheduled for the Absent/Failed students, post completion of all the 3 learning phase milestones. Kindly do not disclose the same to students before completion of all 3 regular learning phase assessments.

Logic Building Hour (LBH) Plan

Background: Improving logic building skill is an important aspect in a programmer's journey. This training program is designed to nurture this skill in beginners. Logic building skill can be improved only by regular and focused practice.

What is Logic Building Hour (LBH)?

Logic Building Hour (LBH) is a dedicated 1 to 1.5 hours per day, when the students are expected to work on logic building exercises. The students are advised to choose any 1.5 hours' slot per day as per their convenience.

Should the students start Logic Building Hour (LBH) from day-1 of the learning?

No. For the initial 2 to 3 days, the students should focus on understanding the fundamentals of the programming language. It is expected that logic building practice must start from day-3 or day-4.

Below is a suggested day-wise plan to be followed for the Logic Building Hour (LBH)

Suggested Timing: 4.30 PM to 6:00 PM (or any slot convenient to the student)

Day-1	<p>Objective of Day1 and Day2 : Learn the basics of the programming language</p> <p>During the first two days of PBL, the students should have learnt the fundamentals of programming language and should be comfortable with the basic programming constructs.</p>
Day-2	<ul style="list-style-type: none"> - conditional statements - looping constructs - data types
	<p>By the end of Day2 :Students should be able to demonstrate their understanding of 'conditions' and 'loops' by being able to write the below programs</p> <p><u>Programs to demonstrate learner's understanding of "Conditional statements"</u></p> <ul style="list-style-type: none"> • Write a program to accept a number N and print whether it is positive, negative or zero • Write a program to accept two numbers and print the greater value of the two • Write a program to accept a number N and print whether the number is EVEN or ODD • Write a program to accept two numbers and print whether their sum is EVEN or ODD <p><u>Programs to demonstrate learner's understanding of "Looping constructs"</u></p> <ul style="list-style-type: none"> • Write a program to print all numbers from 1 to 100 i.e. 1 2 3 4 5 6 7 . . . 98 99 100 • Write a program to print alternate numbers starting from 1 to 99 i.e. 1 3 5 7 9 11 13 . . . 95 97 99 • Write a program to print alternate numbers starting from 0 to 100 i.e. 0 2 4 6 8 10 12 . . . 96 98 100 • Write a program to print all numbers backwards from 100 to 0 i.e. 100 99 98 97 96 . . . 4 3 2 1 0 • Write a program to print numbers backwards from 100 to 1 by skipping 2 numbers i.e. 100 97 94 91 88 85 82 79 . . . 22 19 16 13 10 7 4 1

Day-3

Students who have NOT been able to complete the above mentioned programs on day-2, **MUST** complete them on day-3.

Objective of Day3: Learn the use of division / and mod % operations to solve problems

Solve the below questions using the respective IDE (Eclipse for Java, Visual studio for C#, vi for C/C++)

- **Is Even?**

Write a function to find whether the given input number is Even.

If the given number is even, the function should return 2 else it should return 1.

Note: The number passed to the function can be negative, positive or zero. Zero should be treated as Even.

- **Is Odd?**

Write a function to find whether the given input number is Odd.

If the given number is odd, the function should return 2 else it should return 1.

Note: The number passed to the function can be negative, positive or zero. Zero should NOT be treated as odd.

- **Return last digit of the given number**

Write a function that returns the last digit of the given number.

Last digit is being referred to the least significant digit i.e. the digit in the ones (units) place in the given number.

The last digit should be returned as a positive number.

for example,

if the given number is 197, the last digit is 7

if the given number is -197, the last digit is 7

- **Return second last digit of the given number**

Write a function that returns the second last digit of the given number.

Second last digit is being referred to the digit in the tens place in the given number.

for example,

if the given number is 197, the second last digit is 9

Note1 - The second last digit should be returned as a positive number.

i.e. if the given number is -197, the second last digit is 9

Note2 - If the given number is a single digit number, then the second last digit does not exist. In such cases, the function should return -1.

i.e. if the given number is 5, the second last digit should be returned as -1

- **Sum of last digits of two given numbers**

Rohit wants to add the last digits of two given numbers.

For example,

If the given numbers are 267 and 154, the output should be 11.

Below is the explanation -

Last digit of the 267 is 7

Last digit of the 154 is 4

Sum of 7 and 4 = 11

Write a program to help Rohit achieve this for any given two numbers.

The prototype of the method should be -

Logic Building Hour (LBH) Plan

int addLastDigits(int input1, int input2);
where input1 and input2 denote the two numbers whose last digits are to be added.

Note: The sign of the input numbers should be ignored.
i.e.

- if the input numbers are 267 and 154, the sum of last two digits should be 11
- if the input numbers are 267 and -154, the sum of last two digits should be 11
- if the input numbers are -267 and 154, the sum of last two digits should be 11
- if the input numbers are -267 and -154, the sum of last two digits should be 11

Objective of Day4: Learn the usage of the mettl tool

Mettl is an automated evaluation tool for coding tests.
Students are advised to read the "Mettl User Guide" to learn the usage of the tool..

Solve the below questions on mettl

Note – These are same questions as day-3 questions. The focus on day-4 is to learn the usage of mettl.

Logic building approach: Read the document "**An Approach to Logic Building**" (mainly section-B) available in the "Logic Building" link in PBLApp. It suggests a "Divide-and-Conquer" approach to be followed by beginners while developing logic. Students are expected to read the document carefully and follow the approach while solving all subsequent logic building problems.

Objective of Day6: Learn to solve math based number problems (will require loops and maths)

Dear Professors,

Find attached the learning phase assessment scores that are completed till date. This will help you track the students' progress.

There will be 1 Re-Test assessment for each milestone.

The Re-Test assessments will be planned post completion of all the 3 learning phase milestones.

Dear Professors,

Find attached the learning phase assessment scores that are completed till date. This will help you track the students' progress.

Kindly look into the respective columns for each milestone test and Re-Test

Candidates who had cleared any 2 milestones are eligible for the Final Assessment. Filter the last column BA->Eligible for Final Test
