REPORT ON FACULTY DEVELOPMENT PROGRAM

Title of FDP:

"ASPECTS ON DESIGN and ANALYSIS OF ANALOG ELECTRONIC CIRCUITS WITH HANDS-ON SESSIONS USING MULTISIM"

A ONE-WEEK hands-on experience FACULTY DEVELOPMENT PROGRAM has been conducted by **Group- V (Analog Electronics and Instrumentation)**, from **25-06-2018 to 30-06-2018** during college working hours. The registration fee for the workshop is **Rs: 1000/- per participant**. Even though the number of faculty expected is about 25, only 12 faculty members have registered for the program. Out of 12, SIX members are from other Engineering Colleges. The FDP was successfully concluded on 30-06-2018 at 4:00 PM with valedictory function.

The following are the details of the FDP:

Venue: Seminar Hall, 2nd Floor Block-I and DDVH Lab (R. No: 316) are used up to end of the FDP.

Time: 9:30 AM to 4:00 PM (Every day)

Activities: Day-wise

Day and Date	Session	Topic covered	Resource Person
Day-1 (25-07-2018)	1	Registration of participants and Inaugural function	-
	2	Classifications of Electronic circuits, Passive and active circuits	Dr. Vijaya Gunturu, GCET
	3	Introduction to modeling of Electronic Devices and Circuits	Dr. Vijaya Gunturu, GCET
	4	Model parameters of Electronic Devices using in ECAD tools	Dr. Vijaya Gunturu, GCET
Day-2 (26-07-2018)	1	Two port Networks Parameters	Dr. S Suryanarayana, GCET
	2	Analysis of single stage amplifier using low frequency small signal h-parameter model	Dr. C. Venkata Narasimhulu, GCET
	3	Multisim Lab : Simulation of Transient response of RC, RL circuits	Dr. S Suryanarayana, Mrs. M Umarani, Mr.

Report
of
One Week (6-Days) Faculty Development Program (FDP)
on
"Cellular Mobile Communication Networks"
June 25-30, 2018

Objectives of the FDP:

This FDP is planned in technical collaboration with IEEE Women in Engineering, Hyderabad chapter and ISTE to provide an opportunity to the faculty of Engg. Colleges and Research scholars to enrich their knowledge in fields Cellular, Mobile and Wireless Communication Systems and Networks. As part of this course, it is envisaged to cover the theoretical concepts in these emerging & ever-growing technological areas along with practical hands-on sessions on various fundamentals and related advances in the field of wireless technology through MATLAB simulations. The FDP will be useful for the faculty whose interest is in teaching courses/ pursuing research in areas such as, but not limited to: Cellular Mobile Communication Networks and allied engineeringand technological areas.

Brief Report:

The inauguration of the FDP was done in the august presence of Chief Guest Dr.M.V. Raghunath, Associate Professor, Department of ECE, NIT Warangal. Guest of Honour Sri.SKLV Sai Prakash, Associate Professor, Department of ECE, NIT Warangal, Chairman GCET Sri.G.R. Ravinder Reddy, Principal GCET and Prof. B. Hari Kumar, Head Department of ECE along with the coordinator Dr. Vijaya Gunturu, Professor ECE and co-coordinator Dr. V. Satya Srinivas, Associate Professor, Department of ECE, GCET.A total of 26 members got registered in this FDP. Eleven participants are from various colleges and fifteen in house faculty are also trained as part of the programme. Industrial visit to Cell One (BSNL), Saroornagar is also organized for participants. The theoretical and practical sessions are organized by expert members from academic institutions, R&D Labs and Industry of good repute. These institutes including IIT (Hyderabad), NIT (Warangal), National Physical Laboratory (New Delhi) and 5G Solutions, Hyderabad. *Details of the various sessions and schedule is depicted below*. The Chief Guest of valedictory function is Dr. C .B. Rama Rao. Professor, Department of ECE, NIT Warangal. At the end A DVD including the material provided by the guest faculty is distributed to the participants.

To

The Principal,
Geethanjali College of Engineering and Technology,
Cheeryal(V), Keesara (M),
Medchal Dist. – 501301

Respected Sir,

Sub: Request for approval of Faculty Development Program on 'Cellular Mobile Communication Wireless Networks – June25-30, 2018 – Reg.

On behalf of the Dept. of ECE, we would like to conduct a one week (6-day) Faculty Development Program (FDP) on 'Cellular Mobile Communication Networks' from June 25-30, 2018.

The FDP is planned to provide an opportunity to the faculty at both GCET, those at various Engg. Colleges in the region, Research Scholars to enrich their knowledge in fields Cellular, Mobile and Wireless Communication Systems and Networks. As part of this course, it is envisaged to cover not only the theoretical concepts but also provide practical sessions on various fundamentals and related advances through MATLAB simulations.

Experts in these areas from Institutions and Industry of repute such as: BITS, NIT, CBIT, CMR, M/s 5G Solutions and M/s Akamai Technologies have been identified in addition to in-house resource persons.

Around 45-50 participants (including our faculty) are expected to attend the FDP since the contents being planned under the FDP are important topics from not only the emerging areas of Communication Engg. but also are part of Compulsory Courses prescribed by the JNTU for its IV B.Tech. students in addition to them being among certain specific areas of dearth of expertise in and around several engineering colleges of the region.

The budget proposed for conducting FDP is approximately Rs.90,000/- (Rupees Ninety Thousand Only); wherein about 50% of the same would be generated as revenue out of a registration fee of Rs.1000/- (Rupees One Thousand Only) per participant. A tentative Budget proposal is enclosed herewith for your ready reference, in the next page.

Permission may kindly be granted to conduct the FDP program and sanction the funds, in advance. The amount collected from participants will be credited to the college account on completion of the FDP.

Thanking you,

Yours' Sincerely,

(Dr. V. Satya Srinivas)

REPORT ON

A ONE WEEK Faculty Development Program – FDP/ Student Development Program – SDP on "Arduino and Raspberry Pi Modules – Hardware and Software"

18th – 23rd June, 2018

Objectives:

Develop ability to

- ***Understand the operation of Arduino and Raspberry-Pi boards.***
- ***Work in a team.***
- ***Develop the modules/ projects which are environment friendly.***
- ***Write programs using Arduino IDE Tool and Python***

Department of ECE under Group-IV has organized **A ONE WEEK Faculty Development Program – FDP/ Student Development Program – SDP on "Arduino and Raspberry Pi Modules – Hardware and Software"** from *18th – 23rd June, 2018* for Faculty of ECE, EEE and CSE Departments and for Final Year students of ECE under **IETE Forum**.

The main objective of this course is to provide opportunity for the faculty and final year ECE students to enrich their knowledge in depth about the latest Microcontroller Boards ARDUINO and RASPBERRY-PI, both hardware and software. They also get the hands on experience and how to develop the modules. This program also helps the final year ECE students to act as resource persons i.e., as Peer Instructor for the Peer-Learning Program i.e., "ARDUINO Base Project Execution", and helps them to execute the projects (Mini/ Major) on their own.

The day wise schedule is as listed below:

Day 1:

18/06/2018: (a) Inauguration of the Event.

(b) Architecture of Arduino board explained by Mr. K. Somasekhara Rao, Professor of ECE Department and Dean Student Affairs, GCET.

PRINCIPAL
Geethanjali College of Engineering and Technology
(Autonomous)
Cheeryal (V), Keesara (M), Medchal Dist. (T.S.) - 501 301

(c) How to download and install ARDUINO IDE tool and Programming concepts taught by Mr. Ch. Sandeep, Assistant Professor, ECE Department, GCET.

Day 2:

19/06/2018: (a) Explanation on **Sensors, Actuators and Interfacing Devices for ARDUINO Based Projects** by Mr. K. Somasekhara Rao Professor of ECE Department and Dean Student Affairs, GCET.

(b) Programming Concepts how to Interface the sensors by Mr. Ch. Sandeep, Assistant Professor, ECE Department, GCET.

Day 3 to Day 5:

20/06/2018 to 22/06/2018: Modules are developed.

Day 6:

23/06/2018: (a) Python Programming is explained by Dr. S Nagendra Kumar, Professor and HoD of CSE Department, GCET.

(b) Explanation about Raspberry-PI is explained by Mr. A Subramanyam, Assistant Professor, ECE Department, GCET.

(c) Valedictory of the Event.

For this program 20 Faculty members from ECE, CSE and EEE Department, and 47 Students from Final Year ECE were participated. All have gained the knowledge the in-depth about Arduino and Raspberry-PI. Along with this everyone has seen the working of different types of sensors, actuators and interfacing devices.

About the College

Geethanjali College of Engineering and Technology (GCET) was established in the year 2005 with the sole objective of providing quality technical education affordable to youth of our nation. The college has excellent infrastructural facilities and modern laboratories. It also has highly competent and dedicated faculty. The college is recognized as an R&D centre by Scientific and Industrial Research Organization (SIRO). The college offers Undergraduate programs in engineering branches, namely, CSE, ECE, EEE, MECH and CIVIL with a total intake of 840 students. Three of its Undergraduate programs, namely, CSE, ECE and EEE have been accredited by NBA in July 2015. The college was conferred "Autonomous" status by UGC with effect from Academic Year 2016-17 for a period of six years. The college was accredited by NAAC with Grade "A" in May 2017. It also received ISO 9000:2008 certification. The College offers postgraduate programs in MBA and M.Tech in Computer Science and Engineering.

About ECE Department

The Department of Electronics and Communication Engineering (ECE) was started in the year 2005 with an initial intake of 60 students. Right from its inception, it is continuously striving to impart quality education and promoting competitive spirit among students for academic excellence. The intake was enhanced to 240 w.e.f AY2013-14. The department has well equipped laboratories with good infrastructure. It has highly qualified and experienced faculty. A good number of technical papers are published by the faculty in National/International Conferences Proceedings/ Journals. The Department has signed MOUs with various organizations to provide real time training to the students in the field of advanced communications, VLSI, Networking and Embedded Systems.

The department was sanctioned a DST project entitled "Design and Development of Multi wavelength Laser Radar" (LIDAR) with an overall budget of Rs.34.58 Lakhs in the AY2010-11 which was successfully completed in AY2014-15. One more project entitled "Investigation of Linear Combinations of GNSS Measurements to Mitigate the Effect of Ionosphere and Multipath" was also sanctioned by DST with a grant of Rs. 21.5 Lakhs and is being carried out. A Consultancy project entitled "Development of High Density Electron Emitter for use in Defense" is in progress for M/s VEM Technologies from Nov. 2016. The department was sanctioned by DRDO, a major research project entitled "Development of novel carbon nano fabric/polymer nano composite materials for EMI applications" in April 2018 with an overall budget of Rs.45.81 Lakhs.

Aim of the programme

This FDP/ SDP is intended to provide opportunity for the faculty and final year ECE students to enrich their knowledge in depth about the latest Microcontroller Boards ARDUINO and RASPBERRY-PI, both hardware and software. They also get the hands on experience and to develop the modules during the program. This program helps the final year ECE students to act as resource persons for the Peer-Learning Program i.e., "ARDUINO Base Project Execution", and helps them to execute the projects (Mini/ Major) on their own.

Topics to be covered

- Introduction to Arduino Board, Hardware Details and Board Description of Arduino
- Working of Various Sensors & Actuators for Arduino Based Projects
- Introduction and details about Raspberry-Pi.
- Interfacing Sensors to Raspberry-Pi
- Execution of a model project of the participants choice.

Resource Persons

- Prof. K. Somasekhara Rao, Professor & Dean, Student Affairs
- Dr. S.Nagendra Kumar, HoD, CSE Department
- Mr. A.Selvarajan, Assistant Professor, ECE Department
- Mr. CH.Sandeep, Assistant Professor, ECE Department.

Eligibility

Faculty of GCET and Final Year Students of ECE.

Registration and Fee Particulars

Participants are requested to register by giving their details like Name, Faculty/ Student Names to the Coordinators and there is no registration fee.

Report
of
One Week Faculty Development Program (FDP)
on
"Latest Trends in VLSI Design and hands-on implementation using Cadence EDA Tools"
June 18-23, 2018

Objectives of the FDP:

Chip Design in India has grown by leaps and bounds, owing to the presence of several MNCs, design services and product companies. It translates to a plethora of opportunities for those who are trained well in VLSI Design. This FDP is intended for young faculty members working in engineering colleges and research scholars to make them familiar with latest trends in VLSI Design/Technology. In addition to theoretical knowledge, the aim of this FDP is to equip the participants with hands-on experience in the state-of-art Cadence EDA tools. Towards meeting these objectives, Department of Electronics and Communication Engineering, Geethanjali College of Engineering and Technology, Cheeryal (V), Keesara (M), Hyderabad has organized a one week FDP during June 18-23, 2018 in technical collaboration with IEEE CAS/EDS Chapter, Hyderabad Section.

Brief Report:

The inauguration of the FDP was done in the august presence of Chief Guest Sri Anil Terkar, Scientist "G", Head, Indigenous Processor Wing, ANURAG (DRDO), Guest of Honour Sri. A.G. Krishnakanth, Vice Chair, IEEE CAS/EDS, Senior Manager, AMS along with Dr. Udaya Kumar Susarla, Principal, GCET and Prof. B Hari Kumar , Head, Department of ECE along with Mr. S Vasu Krishna, Co-Coordinator of FDP, Associate Professor of ECE and IEEE SB Counselor, GCET. All the participants of the FDP were taken for a one day industrial visit to Gallium Arsenide Enabling Technology Centre (GAETEC), an MMIC Chip Fabrication Unit located in Hyderabad. A total of 28 members got registered in this FDP from various colleges across India, in which three are IEEE members. Certificates were distributed to all participants during valedictory session. Details of the various sessions are listed below.

To
The Principal,
Geethanjali College of Engineering and Technology,
Cheeryal (V), Keesara (M), Medchal (Dist.).

Respected Sir,

Sub: Request for approval of Faculty Development Program on "**Latest Trends in VLSI Design and hands-on implementation flow using Cadence EDA Tools**" - Reg.

Ref: Groups Heads Meeting with HoD, ECE dated 25/04/2018.

With the reference cited above, I would like to conduct one week Faculty Development Program on "Latest Trends in VLSI Design and hands-on implementation flow using Cadence EDA Tools" in association with IEEE CAS Chapter of GCET (Circuits and Systems) from **18/06/2018 to 23/06/2018**. This FDP is intended to provide opportunity for young faculty members working in Engineering Colleges and Research Scholars to enrich their knowledge with latest trends in VLSI design, methodology and emerging applications in Quantum Computing, AI, IoT etc. All the participants are planned to be provided hands-on experience in usage of Cadence EDA tools for various VLSI chip design tasks.

Soon after the program is approved, resource persons from reputed institutions/industry will be invited, in addition to in-house resource persons.

The budget proposed for conducting this FDP is approximately Rs. 90,000/- (Rupees Ninety Thousand only). It is proposed to collect Rs. 1000/- from each participant towards Registration Fee (for IEEE members it will be Rs. 750). We are expecting around 50 participants including our faculty. We are putting an effort to get sponsors for this FDP. Budget proposal is also enclosed herewith for your kind reference.

Hence, on behalf of VLSI Design Group, I request you to kindly approve the FDP program and sanction the estimated funds in advance from our institute. Sponsorship amount and fee collected from participants shall be credited into college accounts after completion of the FDP.

→ An amount of Rs 40,000 to Rs 50,000/- is expected as income in the form Registration fees. Expected expenditure to be incurred is Rs 90,000/-
Forwarded to Principal for permission

Thanking you,

Yours Sincerely,

O.V.P.R. Siva Kumar,
Professor and Head, VLSI Design Group, Department of ECE

Geethanjali College of Engineering and Technology (GCET) was established in the year 2005 with the sole objective of providing quality technical education affordable to youth of our nation. The college has excellent infrastructural facilities and modern laboratories. GCET is recognized as an R&D centre by Scientific and Industrial Research Organization (SIRO). The college was conferred **"Autonomous"** status by UGC with effect from Academic Year 2016-17 for a period of six years. The college was accredited by NAAC with Grade "A" in May 2017. It also received ISO 9000:2008 certification.

About ECE Department

The Department of Electronics and Communication Engineering (ECE) was started in the year 2005 and is continuously striving to impart quality education and promoting competitive spirit among students for academic excellence. The department has experienced faculty and well equipped laboratories. The B.Tech program in ECE was accredited by NBA in 2012 and 2015.

The Department was sanctioned a DST project entitled "Design and Development of Multi wavelength Laser Radar" (LIDAR) with an overall budget of Rs.34.58 Lakhs in the AY 2010-11, which was successfully completed in AY 2014-15. One more project entitled "Investigation of Linear Combinations of GNSS Measurements to Mitigate the Effect of Ionosphere and Multipath" was also sanctioned by DST with a grant of Rs. 21.5 Lakhs and is in progress. A Consultancy project entitled "Development of High Density Electron Emitter for use in Defense" is in progress for M/s VEM Technologies from November 2016. The department was sanctioned by DRDO a major research project entitled "Development of novel carbon nano tube/polymer nano composite materials for EMI applications" in April 2018 with an overall budget of Rs.45.81 Lakhs.

Hyderabad Section

IEEE Hyderabad Section was established in 1989 and has been a very active section in Asia Pacific region. It was awarded the large section award in year 2015. There are 10 Technical Societies, 2 affinity groups and one Technology management council in the Hyderabad section. The Joint Chapter of IEEE Circuits and Systems/ Electron Device Societies was established in 2011 by a team of dedicated volunteers from Industry and Academia. IEEE CAS/EDS Hyderabad has successfully hosted PrimeAsia 2012, PrimeAsia 2013 and PrimeAsia 2015. The Chapter has established good rapport with IEEE CAS Japan, Singapore, Malaysia, Indonesia and Sri Lanka over the last three years utilizing the CASS Networking initiative and has conducted workshops and conferences in collaboration with these countries. The CAS chapter is motivated to place Hyderabad section on the map of Circuits world by organizing distinguished conferences like APCCAS, ISCAS and others.

Aim of the Program

Chip Design in India has grown by leaps and bounds, thanks to the presence of several multinationals, design services companies and product companies. It translates to a plethora of opportunities for quality VLSI-trained talent. This FDP is intended for young faculty members working in engineering colleges and research scholars to make them familiar with latest trends in VLSI Design/Technology and to enrich them with depth and breadth of knowledge. In VLSI design, the methodology makes extensive use of CAD techniques for all the tasks that span design through layout to finally "sign-off the design database" for chip fabrication.

In addition to theoretical knowledge, the aim of this FDP is to equip the participants with hands-on experience in the state-of-art Cadence EDA tools for VLSI Design supporting Analog and Digital Front End and Back End.

Concepts

- Overview of VLSI Design Flow, Tools and Methodology; System Architecture Design.
- Latest trends in ASIC Design, Design for Verification, DFT, Constraint driven Synthesis, STA
- Physical Design, Timing Driven P&R, Physical Verification, DFM etc.
- Challenges involved in design of Digital/Analog/Mixed Signal circuits for IP and System on Chip (SoC).
- Analog Design Modeling using Verilog-A and Simulation; Analog IC Design using Cadence Virtuoso; Lab Sessions on Verilog-AMS.
- Emerging Applications of VLSI in IoT, Artificial Intelligence, DSP, Wireless Communications etc.
- Opportunities for Research in VLSI Design.

Resource Persons

Experts from industry and prestigious academic institutions namely RCI, ANURAG (DRDO), AMD, Redpine Signals, AMS, NIT Warangal and SNIST.

Industrial Visit

A visit to **GAETEC**, a Chip Fabrication Unit, is scheduled for the participants during FDP.

Eligibility

Faculty with ECE, EEE and EIE background and Research Scholars in this domain.

Schedule

Registration to be completed on or before: June 14, 2018
Intimation of final list of participants: June 16, 2018
Program Dates: June 18-23, 2018
Timings: 9:30AM to 4:00PM
Venue: Seminar Hall, Block 1

REPORT

on

" 5 Day FDP on Microprocessors and Microcontrollers Lab "

Held from 8th to 12th May 2018

Department of ECE, Group IV organized a ***"5 Day Faculty Development program on Microprocessors and Microcontrollers lab "***, *held at MPMC LAB from* 8th to 12th May 2018, for faculty of ECE, handling the lab course for ECE and EEE III Yr. students, during A. Y 2018-19. Training is given by the lab handling faculty Ms. M.Laxmi, and Mr. CH.Sandeep of ECE Department. The FDP aims to provide an opportunity to all the lab handling faculty, to enrich their programming skills in lab experiments as per Autonomous syllabus. The FDP also intends to develop the knowledge of faculty for execution of additional experiments with Proteus software On the First Day of FDP, in the morning session, principal Dr.S.Udaya Kumar Susarla addressed the faculty to gain expertise in, knowledge on processor architecture and programming skills and execute the same using hardware and software with involvement and dedication. He emphasized on the methodology of conducting the Lab experiments and Teaching Learning process.

Through this program, the lab handling faculty was gained hands-on experience in various aspects like assembly language programming for 8086 microprocessors and 8051 microcontrollers, execution using software's (MASM, KEIL) and hardware kits (8086,8051), Interfacing study cards (8255, ADC, DAC, LCD, HEX KEYBOARD) with trainer kits. The last two days are totally dedicated for hands on sessions for the interested faculty. Thirteen faculty members have attended this program. In the Valedictory session, Prof. B.Harikumar HoD ,ECE appreciated the way of conducting FDP and informed the participants about the requirements of the FDP training. He also said that the Group IV is conducting this type of trainings actively and this will give motivation to other groups. He also appreciated the Group Head for his proactiveness and making the group faculty always passive in his speech. All the sessions were

"Faculty Development Program on MPMC LAB experiments"

On 8th, 9th, and 10th May 2018

Microprocessors and Microcontrollers lab training program is scheduled on 8th, 9th, and 10th May2018 to all the faculty members handling the MPMC lab. The following is the program schedule.

Training is given by Ms. M. Laxmi and Mr. Ch. Sandeep. Venue is MPMC Lab.

Date	Morning (10.00 AM to 12.50 Noon) Afternoon (1.30 PM to 4.00 PM)
08/05/18	Introduction to 8086 microprocessor and MASM software 1.Programs for 16bit arithmetic operations for 8086 (using various addressing modes) 2. Program for sorting an array for 8086 3. Program for searching for a number or character in a string for 8086 4. Program for String manipulations for 8086 5. Program to generate Fibonacci Series using 8086. 6. Interfacing ADC and DAC to 8086. 7. Parallel communication between two microprocessors using 8255. 8. Serial communication between two microprocessor kits using 8251. 9. Program and verify different modes of 8255
09/05/18	Introduction to 8051 and KEIL µ vision software. 11.Programming using arithmetic, logical and bit manipulation instructions of 8051 12. Program and verify Timer/Counter in 8051. 13.Program and verify interrupt handling in 8051. 14.UART operation in 8051. 15.Communication between 8051 kit and PC. 16.Interfacing Keyboard/Display to 8051. 17.Interfacing matrix keyboard to 8051.
10/05/18	Additional Experiments and Introduction to Proteus Software. 16.Interfacing LCD to 8051(Proteus) 17.Wave form generation using Keil(Proteus) 18.Programs using DOS/BIOS interrupts.(MASM)

ABOUT THE INSTITUTION

Geethanjali College of Engineering & Technology (GCET) is an UGC Autonomous institution, permanently affiliated to Jawaharlal Nehru Technological University, Hyderabad (JNTUH) and has its strength lying in its principles of providing the right learning environment for the student. The campus epitomizes the Geethanjali motto, "Striving towards Perfection" in providing the best of infrastructure, ambience and quality faculty. The college is recognized as Scientific and Industrial Research Organization (SIRO) by the Directorate of Scientific and Industrial Research (DSIR)-New Delhi. Three programs, B.Tech (CSE), B.Tech (ECE) & B.Tech.(EEE), of GCET are accredited by NBA, New Delhi. Institution is accredited with "A" Grade by NAAC.

ABOUT THE PROGRAM

The seminar will bring together data scientists from Academia and Industry to discuss breakthroughs and research topics that are related to Data Science and Analytics. Data Scientists combine their knowledge and skill to extract meaningful information from the intricacies of the structured/unstructured data. Data is being continuously generated and consumed in various formats, and sizes from a number of varied sources. This data can be a big asset if stored, processed and analysed efficiently in real time with the help of intelligent algorithms. There is a growing interest to utilize such data for the improvement of business, health, education which would lead to societal development.. Further, the demands for skilled resources in these fields are growing day by day.

BENEFITS TO FACULTY

- Recognizing what data can do for the organization.
- Going beyond traditional methods of collecting data.
- Exploring data analytics using assessments and role play.
- Using data as a strategic asset: framing, finding, extracting and applying data.
- Identifying internal/external resources to acquire and profile usable data.
- Extracting insights and intelligence from data.
- Recognizing key security, privacy, sensitivities and ethical concerns associated with data analytics.

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering was established in the year 2005 and currently the department offers an Under Graduate program B.Tech in Computer Science and Engineering with an annual intake of 240 students and 1 Post-Graduate program M.Tech in Computer Science and Engineering with an annual intake of 30 students. B.Tech CSE) program is accredited twice by NBA. The Department is headed by Prof. Dr. Nagender Kumar Suryadevara having a total experience of 18 years in Teaching. There are 9 Professors, 14 Associate Professors, and 52 Assistant Professors in the department for UG. The department has 14 Programmers and 5 System Administrators to assist and maintain the computer laboratories. *The department has setup Emerging Technologies Lab: Big Data, Security in collaboration with IBM.*

EXPECTED OUTCOME

By the end of the 2-day Seminar participants would be able to:

- Acquire a clear understand about the models relevant to Data Science and Analytics.
- Apply effective "best practices" in Data Science and Analytics, including facility with modern tools such as R, Hadoop, Python and Julia.
- Know the core algorithms underlying an end-to-end data science workflow
- Discern the data science tools used in financial services, banking, insurance, e-commerce and government healthcare.

RESOURCE PERSONS

Resource persons are eminent faculty members from premier Institutions, Industries including IIIT, Hyderabad, IDRBT, Hyderabad, IIITDM, Kurnool, JNTUH, Hyderabad, TCS, IBM, Oracle and Microsoft India.

Sub: Acceptance letter-Grant-2 Day National Seminar -Reg.

Firstly, we are very much obliged for considering our proposal and giving us an opportunity to organize national seminar.

In accepting the grant [File number F.No.7-23/RIFD/SG/POL-I/2016-17 received on 28-Aug-2017] from All India Council for Technical Education (AICTE) under the scheme of Seminar Grant, we agree to expend the funds from your grant only for the purposes for which the grant was made and in accordance with guidelines of AICTE. We also accept and agree to the conditions of conducting seminar to the Grant Policies and Procedures related to scheme of seminar.

We understand that the release of a sum of Rs.50000/- being the 1st installment of the total Grant of Rs.100000 for conduct of seminar will be utilized in the financial year 2017-18. The 2nd installment payment to us which are yet to be made by AICTE, will be done after the submission of the expenditures incurred for the seminar.

We will provide you a full financial report on the use of the grant funds and also provide you an evaluation report on what the grant funds accomplished within one month of completion of the seminar. The 2-day seminar will be conducted from 20-Oct-2017 to 21-Oct-2017. The tentative program details are attached along with this letter as brochure for your consideration.

ABOUT THE INSTITUTION

Geethanjali College of Engineering & Technology (GCET) is an UGC Autonomous institution, permanently affiliated to Jawaharlal Nehru Technological University, Hyderabad (JNTUH) and has its strength lying in its principles of providing the right learning environment for the student. The campus epitomizes the Geethanjali motto, "Striving towards Perfection" in providing the best of infrastructure, ambience and quality faculty. The college is recognized as Scientific and Industrial Research Organization (SIRO) by the Directorate of Scientific and Industrial Research (DSIR)-New Delhi. Three programs, B.Tech (CSE), B.Tech (ECE) & B.Tech.(EEE), of GCET are accredited by NBA, New Delhi. Institution is accredited with "A" Grade by NAAC.

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering was established in the year 2005 and currently the department offers an Under Graduate program B.Tech in Computer Science and Engineering with an annual intake of 240 students and 1 Post-Graduate program M.Tech in Computer Science and Engineering with an annual intake of 30 students. B.Tech CSE) program is accredited twice by NBA. The Department is headed by Prof. Dr. Nagender Kumar Suryadevara having a total experience of 18 years in Teaching. There are 9 Professors, 14 Associate Professors, and 52 Assistant Professors in the department for UG. The department has 14 Programmers and 5 System Administrators to assist and maintain the computer laboratories. *The department has setup Emerging Technologies Lab: Big Data, Security in collaboration with IBM.*

Sub: Permission to conduct One week **FDP** on **Recent advances in Mechanical Engineering– Reg.**

Respected Sir,

For the academic year 2017-18, the department of Mechanical Engineering would like to organize **one week faculty development programme** on **"Recent advances in Mechanical Engineering"** for the Mechanical Engineering faculty members. Herewith, a proposal has been enclosed for your kind consideration and sanction of necessary budget. The FDP will be organized tentatively during the last week of May or First week of June 2018.

With Regards

ONE WEEK FACULTY DEVELOPMENT PROGRAMME

Title	RECENT ADVANCES IN MECHANICAL ENGINEERING
Dates	Tentatively Fourth week of May/ First or Second week of June 2018
About FDP	This program enables the faculty members of any specialization of Mechanical Engineering to understand the recent advances in Mechanical Engineering and enhances their ability to disseminate the knowledge through projects and research activity.
Contents	1. Advances in Solar materials 2. Advances in Refrigeration and Air-Conditioning 3. Mixed Refrigerant Cryogenic Processes 4. Computational Fluid Dynamics 5. Vibrations 6. Advanced design 7. Carbon and Nano materials and 8. Composite materials
Coordinators	1. Dr. M.Devaiah, Production Group Head 2. Dr. Bura Sreenivas, Thermal Group Head 3. Mr. Ram Mohan Reddy, Design Group Head
Organizing committee members	All the faculty members of Mechanical Engineering
Resource Persons	1. Dr. B.Venkatesham, IIIT Hyderabad 2. Dr. Bangaru Babu, NIT Warangal 3. Dr. P.K. Jain, Scientist-F, ARCI 4. Dr. V.Ganapathy, Scientist, ARCI 5. Dr. Bura Sreenivas, GCET, 6. Dr. G.Venkatarathnam, IIT Madras 7. Dr. Vijay, Scientist-F, ARCI 8. Dr. Johnson, Scientist-F, ARCI 9. Mr. A. Venkatesh, CFD Analyst, TCS Bangalore
Need Analysis	1. All the faculty suggested to have the training in the above areas 2. To take up UG projects in emerging areas 3. To carry our research activity in these areas

About GCET	Geethanjali College of Engineering & Technology has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Geethanjali lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. The college recognizes that the rapidly changing technological landscape would require young technocrats with an understanding of evolving technologies, but also with a global perspective. A major goal of Geethanjali is to impart a uniquely broad and interdisciplinary Engineering education of the highest academic quality. This is achieved through an integrated curriculum that consists of a highly diverse set of technical courses, interdisciplinary research projects, day-to-day interaction with industry, and preparation in entrepreneurship and personality development courses. At Geethanjali learning pushes all boundaries of conventional thought in pursuit of understanding science in relation to the society. Every concept a Geethanjalite acquires carries the inbuilt awareness of how it can be applied to render human life better. Over the years since it was established, there has been dynamic progress at Geethanjali in all academic and research activities, and a parallel improvement in facilities and infrastructure, to keep it on par with the best institutions in India. The campus epitomizes the Geethanjali motto, **"Striving towards perfection"** in providing the best of infrastructure and ambience. Geethanjali keeps a keen eye on the current trends and innovations happening in the industry and offers learning methods, which are designed to meet the evolving requirements of the industry.
