## Aspiring Women Entrepreneurs

Apply to receive training, mentoring, and support, including travel to the US

**Announcing training, mentoring, and support for aspiring women entrepreneurs (AWE)**

**Addressing the needs of Indian student innovators interested in starting enterprises**

**Mentoring, workshops, and travel to the US, for exploration of the potential of start-up ideas**

**Female students at Indian universities are invited to apply for the spring 2018 program**

**Application deadline: March 16, 2018**

The US Department of State has engaged The University of Texas at Austin to provide entrepreneurship training, mentoring, and support for female students currently enrolled at Indian universities. Students may apply for admission to the program, noting an idea that they would like to explore in terms of commercialization. Ideas may be based on scientific or technological research undertaken at university, innovation created by the student independently, or innovation of others that students believe they could support.

The program will provide three integrated experiences to help students understand the potential of their specific business ideas and the challenges of moving forward:

1. Following an orientation session, students selected for the program will take a six-week (April 3 to May 11) online course called "Innovation Readiness." The course will require approximately four hours of time per week, including time viewing online modules, completing assignments, and engaging in conversations with a mentor.
2. Following completion of the online course, students will meet for a weekend workshop (May 18-20) at the Nexus Startup Hub at the American Center New Delhi. (For participants residing outside of Delhi, transportation to and lodging in New Delhi will be provided.)
3. In June, students will join, for two weeks, a program in Austin, Texas (Jun 19-29, with air travel beginning the evening of Jun 17 and return to India by Jun 31). Working in collaborative teams with University of Texas students, Indian and American students will explore commercial opportunities for the group's Indian innovations in both India and the US, as well as other markets.

### Timeline for application / selection process:

- **February-March:** Opportunities to attend meetings about the program
- **March 16:** Deadline to submit completed application forms (via email)
- **March 23:** Notification to women accepted or wait-listed for the program
- **March 29:** Information session at Nexus for those accepted or wait-listed (also webcast) and their parents
- **April 2:** Commitment letters due

### Qualifications to apply:

- Female student currently enrolled at an Indian university
- Graduate or undergraduate status
- Eligibility for US visa and travel
- Ability to describe a specific idea for commercialization
- Ideas may be based on
  - university / student research or
  - other innovation that the student has the ability to support

Applications will be judged on student motivation, student readiness to take an idea to market, and viability of the potential business.

Subject: Permission for the E-week conducted by NEN,  
Idea Dimension.

Dear Sir,

Ahead of the NEN E-Week on 15<sup>th</sup> of February 2018, we are writing to you to grant us permission to conduct a week-long event. And we are also urging you to give us last two periods of the entire week to conduct some Entrepreneurship / Fun events. We would shortly give you the budget and schedule details for the events. We would be grateful to receive some inputs from you to make this event successful.

Thanking you.

# THINK WITH THE BOX

- In the first part of the activity, you have to Ideate to create a product/service in healthcare, energy, education, waste management, transportation or any sector that you feel is the most crucial for the country currently.
- You have **15 minutes to come up with your idea.**
- If any of the team members already have a business idea that will be the best idea to get started with.
- In the **second part of the activity, you will Design the Box:**
  - i) On the front of the box:
    - The name of the product
    - A tagline that describes the product
    - Key features/functions (3-5 features only)
    - Benefits/ other relevant selling points
    - Details that connect the product to a real need/customer problem
    - How to use the product
    - Price
    - Place of manufacture
    - Product Life time (if applicable)
    - Customer segments and variations of usage (if applicable)
    - Any other relevant information that helps describe the value created for the customer
  - ii) On the back of the box:
    - How to use the product
    - Price
    - Place of manufacture
    - Product Life time (if applicable)
    - Customer segments and variations of usage (if applicable)
    - Any other relevant information that helps describe the value created for the customer
  - iii) On both sides of the box:
    - How to use the product
    - Price
    - Place of manufacture
    - Product Life time (if applicable)
    - Customer segments and variations of usage (if applicable)
    - Any other relevant information that helps describe the value created for the customer
- You may also describe the product using the same information format on the box you are using.
- Get as creative and innovative as you can to present your product/service. You have only **30 mins to think and 'Design your Box'!**
- Once you are done designing your box, get ready to 'Present your Box'; your team will be given **2-3 minutes to pitch your product and box.**
- In the end, check out how your friends liked your box - count your votes!

# Certificate Programs in Entrepreneurship

## Syllabus

LEARNWISE

### WFNEN 100: Orientation Program in Entrepreneurship

30 Hours, to be taken over one semester. Students' time commitment will be 2-3 hours per week, depending upon semester duration.

#### Course Overview

Phase 0 Certificate Program: Orientation Program in Entrepreneurship - The goals of this program are to inspire students and help them imbibe an entrepreneurial mindset. Students will learn what entrepreneurship is and how it has impacted the world and their country. They will be introduced to the key traits and the DNA of an entrepreneur, and be given an opportunity to assess their own strengths and identify gaps that need to be addressed to become a successful entrepreneur. This certificate program comprises several short courses, each focusing on a specific entrepreneurial knowledge or skill requirement such as creative thinking, communication, risk taking and resilience and helping them become career ready, whether it is entrepreneurship or any other career.

2 hrs/week - 15 weeks  
3 hrs/week - 10 weeks
