GEETHANJALI COLLEGE OF ENGINEERING AND TECHNOLOGY UGC  
AUTONOMOUS  
FINE ARTS AND CULTURAL CLUB  
BATHUKAMMA AND DANDIYA RAS- REPORT

The festival of flowers Bathukamma was celebrated with great gusto. Dandiya Raas competitions brought the entire college dance to Bathukamma and Navrathri tunes. Departments vied with each other to win the prizes. Flowers, colours, mirth and excitement marked the day. *The event was held on 06.10.2019.*

27 December, 2018

Sir,

**Sub:** Request to permit the **Fine Arts and Cultural Club** to Organize **Talent Day and Traditional Day 2019**- Reg.

In continuation with the tradition of celebrating **Traditional Day and Talent Day** in our college and to fulfill the requirement ear-marked in the Academic Schedule regarding the two Fests, I request you to permit the Club to organize the same on **05.01.2019** (Saturday) this year. We plan to conduct competitions like Kite Flying, Rangoli, mehendi etc from 9.15 am to 11.30 pm and have cultural activities from 12.30 pm to 3.30 pm. This year TV 5 is giving the coverage of the event. In view of this, students are planning to decorate the event slightly in grand way. Hence we request you to grant permission to organize the event and sanction a budget of **Rs 28,000/-** (Rupees Twenty Eight Thousand only) towards prizes, decoration etc.

Thank you,

Yours sincerely,

**A Brief Report on BHASWARA-2K20**

13<sup>th</sup> National Technical and Management Festival – BHASWARA-2K20 was held on 12<sup>th</sup> & 13<sup>th</sup> of March'2020 in our college premises.

As a part of BHASWARA-2K20, Mechanical Engineering Department has been conducted some Technical & non technical-fun events as mentioned below.

- I. Department Events - organized on 12<sup>th</sup> March'2020
  1. Assembling & Disassembling
  2. Robo-Race
  3. Quizi
  4. Finde Mich
  5. Chase Tag
  6. Magic Tiles
- II. Common Events organized on 13<sup>th</sup> March'2020
  1. Paper Presentation
  2. Poster Presentation
  3. Project Exhibition

The Event wise details of total number of registrations/ participants, Winners & Runners, Staff Coordinators, Time & Venue has enclosed with this report.

For common events we invited Dr. Sabareesh G.R., BITS Pilani, Hyderabad Campus as Judge for Our Department Common Events.

All the events in our department were conducted smoothly and successfully under the guidance of BHASWARA-2K20 Convener.

In this regard we would like to thank our Management, Principal, BHASWARA-2K20 Convever, Co-conveners, HoD-MED, Faculty Coordinators & Student Coordinators.

Thank you.

Report on

36Hr Hackathon held at

Geethanjali College of Engineering  
On the theme  
'Robotic Process Automation'

In Association with

J-Hub - JNTUH

23<sup>rd</sup> – 24<sup>th</sup> Dec 2019

Convener  
Dr. Anil Kumar Puppala

Co- Convener  
Mr. Phani Kishore

Principal  
Prof Dr. Susarla Udaya Kumar

PRINCIPAL  
Geethanjali College of Engg. Techn.  
Cheeryal (V), Keesara (M), R.R. Dist. (A.P.) - 501 301

36 Hrs Hackathon on "Robotic Process Automation"  
Date: 23-12-2019 and 24-12-2019

### Some of the pictures of Boot Camp

#### Hackathon:

There were a total of thirty three (33) teams registered online (Excel sheet - [Annexure - IV](#)). However three more teams had registered at the registration desk on the day of Hackathon. Total registrations were thirty six for the Hackathon on Robotic Process Automation.

Table: Teams and their colleges

College Name	No. of teams
Mahindra Ecole Centrale, Hyderabad	1
KKR & KSR (KITS ) Guntur, Andhra Pradesh	1
VNR VJIET	1
Anurag College	1
Sreenidhi College of Engineering	1
VJIT	1
Geethanjali College of Engineering and Technology	30

Participants were asked to sign a consent form ([Annexure V](#)) to see that discipline is maintained during the event and was also used to assign team numbers.

PRINCIPAL  
Geethanjali College of Engg. Tech.  
Cheeruvu (V), Keesora (M), R.R. Dist. (A.P.) - 501 301.

36 Hrs Hackathon on "Robotic Process Automation"  
Date: 23-12-2019 and 24-12-2019

PRINCIPAL  
Geethanjali College of Engg. Tech.  
Chouryul (V), Keesara (M), K.R. Dist. (A.P) - 501 201

**Valedictory Function:**

The valedictory ceremony started at 5:00 PM on 24<sup>th</sup> Dec with interaction/feedback from the students from other engineering colleges. Convener Dr. Puppala, presented a report of the winning ideas of both the hackathons (Robotic Process Automation and Smart India internal Hackathon). Mr. Surendra Mohan, spoke at length on 'automation' and the tools that are currently being used in the industry and suggested that the students keep abreast with them. Mr. Rama Krishna opined that Robotic Process Automation (RPA) is an underrated missing block that is gaining huge traction today for comprehensive automation solutions for wide-ranging use cases by augmenting Data Analytics & AI on one end and IoT & Mobility on the other side. Cash prizes worth 50,000/- INR, as announced by the management, were awarded by Principal Prof Dr. Udaya kumar Susarla, Mr. Surendra Mohan, Mr. Ramakrishna and by the convener to the winners. Mr. YVN Phani Kumar (Co-Convener of the event) has proposed 'vote of thanks' by expressing gratitude to JHub, college management, principal, administrative officer and the legion of student volunteers (Annexure- and the photography club (dopy-team) of Geethanjali college for covering the event. Principal has appreciated the special efforts of the students Mr. Gokul (CSE – III year) and Mr. Aravind (ME – Final year) for designing the websites and logos & banners respectively.

**Other Facilities:**

A request for Police patrol vehicle by the GCET was kindly considered by Circle Inspector, Keesara Police station and was provided the same. Temporary rest areas were provided for boys and girls in two separate blocks renting about 100 beds. Mr. Ramanjaeyulu (CSE) and Mr. Naresh (CSE) took care of the food. Administrative officer Mr. Naveen Ram reviewed the arrangements at the canteen, resting areas. Mr. Srikanth Gangapuram (Assoc Prof EEE Dept) ensured that there was un-interrupted power supply. Mr. Dharmveer, Mr. Kamalakar Reddy ensured that there was wireless internet connection at the venue. Student volunteers did a tremendous job in assisting the jury, participants, faculty and the entire event. The list of the volunteers is attached as Annexure VIII

PRINCIPAL  
Geethanjali College of Engg. Tech.  
Cheeryal (V), Keesara (M), A.R. Dist. (A.P.) - 501 307

### Process of Registration

#### **For students of Geethanjali College of Engineering and Technology (GCET)**

AICTE wants every college to conduct an Internal Hackathon and shortlist teams who can be nominated for Smart India Hackathon (SIH) 2020. Five software teams and two teams in the Hardware category with atleast one girl per team, are the constraints.

As a part of the same, Geethanjali College of Engineering is conducting an Internal Hackathon to select, train and nominate the teams for SIH – 2020.

Students can choose problem statements from SIH's portal or the problem statements given under Robotic Process Automation.

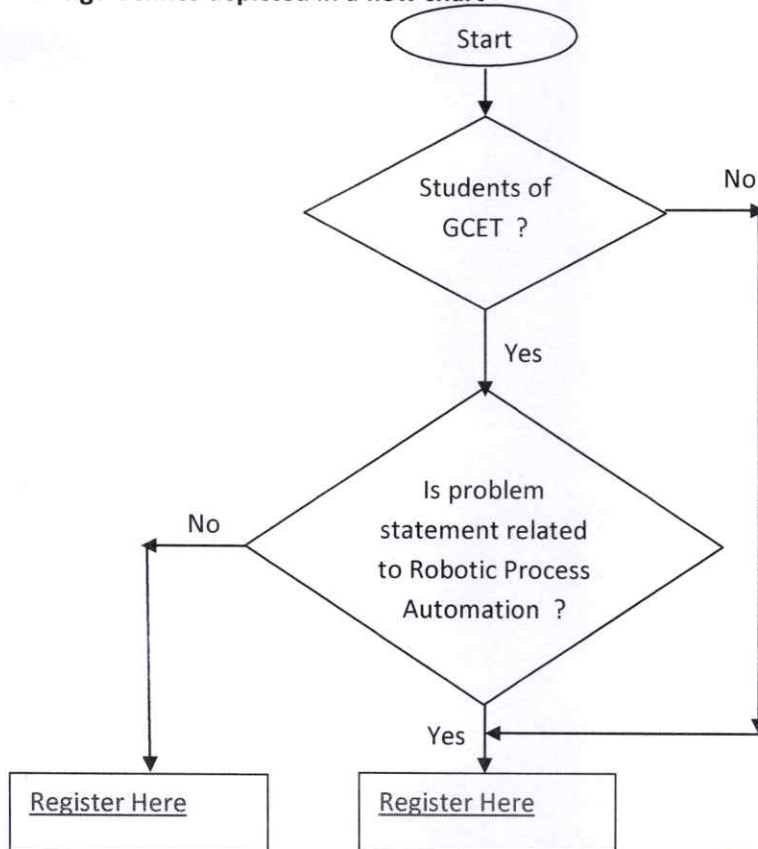

If your Problem statements are from SIH's website and are related to Robotic Process Automation, then you are suggested to fill in the [details here](#).

If your problem statement is not related to theme Robotic Process Automation, then you can use this [google form to fill the details](#)

#### **For students of other colleges**

Please ensure that the problem statements selected is/are related to Robotic Process Automation. Some of the problem statements are given here for quick reference. [This is the registration link](#)

The above guidelines depicted in a flow chart

## Guidelines for the Hackathon on Robotic Process Automation

### The purpose of the Hackathon

This Hackathon at GCET aims to engage students from multidisciplinary backgrounds around technology in (but not limited to) Robots and Process Automation. Anything which reduces manual labour and increases automation is a candidate for the problem statement.

### Who Can Apply?

Anyone who has an innovative idea that uses engineering or technology to solve a challenge in the above area. This sector needs solutions that incorporate:

**Robotics**

**Remote Sensing**

**Automation**

**E-Commerce**

**Traceability**

**Big Data**

**Artificial Intelligence**

**Machine learning**

**Sensors**

**Internet and IoT**

**Logistics**

**Drones**

**Energy efficiency**

**Urban Agriculture**

**Supply chain**

### General instructions:

- Teams must register by December 20<sup>th</sup> 2019 through the provided Google form. Intimation of the selected teams will be done by 21<sup>st</sup> Dec 19.<sup>h</sup>.
- Team members may be from different academic levels and from different technology streams limiting to a maximum size of four.
- Changes in team members, after the process of registration are not encouraged.
- Participants have to bring their own laptop/devices. Participants have to make sure that their laptops should have Wi-Fi connectivity enabled.
- Teams can work on an idea that they have worked on before. Participants must clearly define what is previously developed and newly created.

**Problem Statements requiring 'Robotic Process Automation' for the 36 Hour Hackathon that Geethanjali College of Engineering is planning to conduct on 23-24<sup>th</sup> Dec 2019.**

Some of the problem statements proposed by local Micro Small Medium Enterprises, several departments of Geethanjali College of Engineering for the 36 Hr Hackathon are categorized into Hardware and software...

**Category: Hardware**

1. **Auto change-Over from grid power to power from Generator during power failure**  
 Disciplines: Electrical Engineering  
 Problem Location: Geethanjali College of Engineering.

36 Hrs Hackathon on "Robotic Process Automation"  
Date: 23-12-2019 and 24-12-2019

Currently, there is a down time of around 10 mins, when an operator manually switches from grid power (during power failure) to source the power from diesel generator. Operator has to disconnect the line from Solar panels, as the power from diesel generators is expected to interfere with the solar panels. Diesel generator is then started and is connected to load.

This process can be automated using Programmable Logic Controllers and eliminate human intervention. During important meetings, diesel generators are being run continuously to avoid the inconvenience during down time of the electrical power. A 'quick changeover' by process automation can save even the diesel costs during such important meetings.

  
**PRINCIPAL**  
 Geethanjali College of Engg. Tech.  
 Cheeryal (V), Tadipatri (M), R.R. Dist. (A.P.) - 501 301

Disciplines: Electrical and Mechanical Engineering  
 Problem Location: Vijetha Engineering Industries IDA Kushaiguda

36 Hrs Hackathon on "Robotic Process Automation"  
 Date: 23-12-2019 and 24-12-2019

Metal scrap and non metal scrap on the shop floor is to be regularly cleaned. Metal scrap is currently cleaned by using a magnet shown above by operator. Metal/Non metal scrap chips generally have sharp edges and may injure operators or anyone who steps over it. A robot to regularly clean the shop floor is visualized. It may or may not have a battery.

### Category: Software

#### 1. Smart supply chain management

In supply Chain management the inventory tracking and replenishment management can be made faster by using IOT and RPA.

Using some sensors we can track the stock variations which enable the collection of relevant data on the firm's warehouse stock customer's orders and Software robots enable the automation of replenishment orders and free up the time spent by the operator in data collection, analysis and decision-making.

#### 2. Predictive maintenance in industry

With predictive maintenance, firms can better keep their production lines in optimal operational condition and improve the business continuity - or at least limit the disruption time - of their service(s), thus optimizing production's performance and overall service quality.

IoT sensors enable the collection of relevant data on products, the operator and the production chain in general, Software robots enable the automated machine adjustment tasks or real-time reporting push.

#### 3. Employees payroll automation

Employee attendance tracking is particularly useful for payroll. This ensures nonexempt employees are never over- or underpaid because exact hours are available. Employers can accurately calculate overtime pay, and if necessary, dock pay appropriately.

PRINCIPAL  
 Geethanjali College of Engg. Techn.  
 Cheeryal (R), Nellore (A.P), Dist. (A.P) - 501 201

## 7. Credit Card Application

Banks can appoint RPA software robots to take up the complete responsibility of the initiating a credit card application, to gather all the required documents from the individuals, make the necessary credit checks, background checks on itself, decision making whether or not an individual is eligible for a credit card based on the details that are provided in the step earlier, issue a new card if they are eligible and on successful delivery of the card the case can be closed. The whole process is so systematic that this can be easily handed to the RPA software robots comfortably.

Advantages of Automating Credit Card Applications:

1. Improves employee productivity
2. Anywhere anytime access to online documents.
3. Availability of efficient methods to crosscheck operational metrics for process excellence.
4. Reduce turnaround time
5. High customer satisfaction

## 8. Shipping Notifications

E-Commerce websites and Logistics companies can reap loads of benefits from the RPA software robots as these kinds of activities can be fully automated without the intervention of any human being at all. Since these details can be fetched from the provider database and the shipments can be tracked for delivery over GPS, this can comfortably be automated.

Advantages of Automating Shipping Notifications:

1. Reduce Labor cost
2. Allows streamlining of multiple tasks into one process.
3. Increased accuracy

Avoids dimensional weight surcharges

Subject: Request to approve Honorarium to mentors and also to students who designed website and logos for the 36 Hr Hackathon – Regarding

Sir:

We are happy to let you know that Incubation center of GCET, had successfully organized two 36Hr Hackathons simultaneously on 23-24<sup>th</sup> Dec 2019 in collaboration with JHub and an internal Hackathon, as mandated by AICTE's Smart India Hackathon 2020. There were about 38 teams registered for Robotic Process Automation and about 39 teams which participated and worked on the problem statements listed in the AICTE's [www.sih.gov.in](http://www.sih.gov.in) website.

Mentors Mr. Ashish Agarwal and Mr. Ravi Sunder of Microsoft India, referred by Prof Ashok Sharma of CSE Department had helped the teams by interacting with them on day one and day two respectively.

Also, efforts of the students Mr. Gokul of CSE III Year and Mr. Aravind ME Final year, helped us reach out to large number of students with their efforts in website and logo, certificate, banner & poster designs respectively.

This is to request you to approve an Honorarium for them

Thanking You

Subject: Request to approve for conducting a workshop on "Design Thinking"

Sir,

The incubation center of GCET requests you to approve us to conduct a workshop on "Design Thinking". The resource person identified is Mr. Abhimanyu Bhardwaj, an entrepreneur who works with NTUH's J-Hub and Telangana Academy for Skill Development (TASK).

He is expecting an Honorarium of Ten Thousand INR (10,000/-). The stationery for conducting the workshop is expected to cost four hundred (350/-)

Hence we request you to approve the same.
