Name of the programme: Research Methodology on Quantitative and Qualitative Research

Resource Person: Dr. B. Rambabu

M. Pharm., Ph. D,

Department of Pharmacology

The seminar on “Research Methodology on Quantitative and Qualitative Research” conducted by Geethanjali College of Pharmacy, seminar scheduled on 23.01.2019. The location of the event is Geethanjali College of Pharmacy, Seminar Hall.

The main objective of the seminar is to keep informed the students; It is important to be able to identify and understand the research approach underlying any given study because the selection of a research approach influences the questions asked, the methods chosen, the statistical analyses used, the inferences made, and the ultimate goal of the research. Although some research may incorporate both quantitative and qualitative methodologies, in their ‘pure’ form there are significant differences in the assumptions underlying these approaches, as well as in the data collection and analysis procedures used.

Geethanjali College Of Pharmacy

The seminar on "IPR GO-A JOURNEY TO IPR" conducted by Geethanjali College of Pharmacy, seminar scheduled on 06.12.2018. The location of the event is Geethanjali College of Pharmacy, Seminar Hall.

The main objective of the seminar is to keep informed the students; the government needs to maintain a delicate balance between national interest and IPR protection. However, the advantages of a stronger IPR regime are too hard to ignore, especially as India makes huge strides in the areas of science & technology, industry, agriculture and culture. Without strong IPR protection, innovation and creativity will not be able to flourish. Innovators and creative people won't be able to reap the rewards of their hard work.
