### **RESEARCH METHODOLOGY SEMINAR ON REVIEW OF LITERATURE**

**Name of the programme:** Research Methodology Seminar on Review of Literature

**Resource Person:** Prof. Dr. Bharath Bhushan Mohapatra.

Department of Pharmacology

Geethanjali College of Pharmacy

The seminar on "Research Methodology Seminar on Review of Literature" conducted by Geethanjali College of Pharmacy, seminar scheduled on 27.06.2019. The location of the event is Geethanjali College of Pharmacy, Seminar Hall.

The main objective of the seminar is to keep informed the students; A literature review in its most comprehensive form includes a synthesis of quantitative findings stemming from quantitative research studies and qualitative findings stemming from qualitative research studies. Synthesizing both quantitative and qualitative findings within the same literature review automatically renders the literature review process as a mixed research study. Before the literature review begins, the literature reviewer must determine whether the goal of the literature review is as an end in itself or as a study to inform primary research. If the goal is as an end in itself, then the Seven-Step Model will only be used to generate the literature review report. However, if the goal of the literature review is to inform primary research, then the literature reviewer should undertake a series of literature reviews, as needed, throughout the conduct of the primary research.

### **REPORT ON RESEARCH METHODOLOGY SEMINAR ON PROTOCOL/PROJECT WRITING**

**Name of the programme:** Research Methodology Seminar on Protocol/Project Writing

**Resource Person:** Prof. Dr. J. Sunil

M. Pharm., Ph. D,

Department of pharmaceutical Chemistry

The seminar on “Research Methodology Seminar on Protocol/Project Writing” conducted by Geethanjali College of Pharmacy, seminar scheduled on 30.10.2019. The location of the event is Geethanjali College of Pharmacy, Seminar Hall.

The main objective of the seminar is to keep informed the students, A research proposal born with the intent to convince the others that your project is worthy and you are able to manage it with a complete and specific work plan. With a strong idea in mind, it is time to write a document where all the aspects of the future research project must be explained in a precise, understandable manner. This will successively help the researcher to present it and process and elaborate the obtained results.
