Sir also stated, Men play a major role in the topic of women empowerment. We need to teach our boys from a young age to view women not as competitors but rather as people with whom they can work together to achieve greater impact. Boys should be taught to be women's support system because in as much as we don't really need men to be empowered, we cannot disregard their role in our lives; we have them as husbands, boyfriends, and fathers and even as friends.

Chief guest Dr.D.Laxmi garu had given speech on gender equality very inspiring for the students. This year, International Women's Day is urging everyone to "actively call out gender bias, discrimination and stereotyping each time you see it". Achieving gender equality and empowering women and girls is the unfinished business of our time, and the greatest human rights challenge in our world. Empowering women is empowering humanity. Empowering women is a great responsibility. It is necessary for gender equality and social dignity. Bias, whether unconscious or deliberate, can make it difficult for women to progress in their careers or even receive the right healthcare.

Few Students from different classes have participated in the event by dancing and performed a skit and the made the event successful.
