**Name of the Programme:** Webinar titled “Indo-US international webinar 2020”.

**Date of the Webinar:** 29.08.2020

**Resource persons: 1. Dr. SURESH BANDARI**

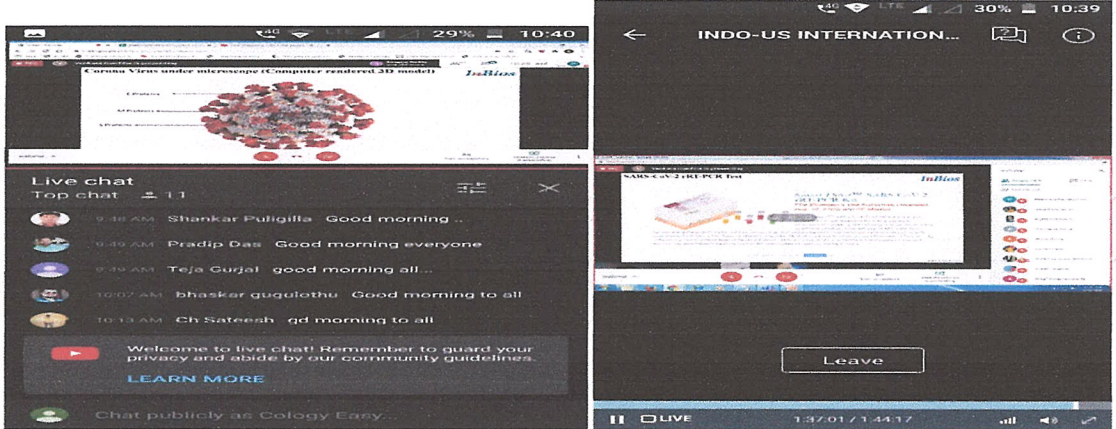

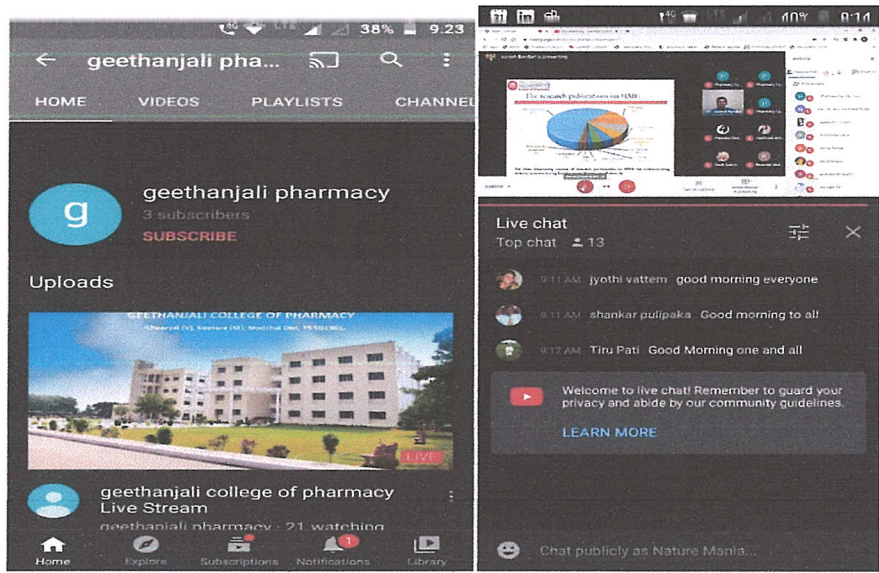

Research scientist, The University of Mississippi,  
Mississippi, USA.

**2. Dr. VENKATARAMANA.M**

Scientist, InBios International Inc, Seattle, Washington, USA

One day e- webinar titled “Indo-US international webinar 2020 “was conducted by Geethanjali College of Pharmacy 29.08.2020 in online mode. Opening remark given by Dr.M.Naga Ganesh, HOD, and Department of Regulatory affairs, which was followed by an introduction to the program by Dr.M.Ravi Kumar, Principal of GCPK. The webinar was started with speaker Dr.Suresh bandari, Research scientist. The webinar was mainly focused on pharmaceutical applications of Hot Melt Extrusion (HME) and Fused deposition Modeling (FDM) 3D printing technologies in drug delivery. Followed By another speaker Dr. Venkata Ramana.M focused on how to develop immunoassay for melioidosis diagnosis. After completion of question and answer session, concluding remarks given by Dr.M.Ravi Kumar, Principal. In the end Dr.M.Naga Ganesh gave vote of thanks and concluded e-webinar.

Total more than 300 participants participated in the webinar.

### Webinar on Intellectual Property Rights (IPR)

A webinar on IPR was organised by Geethanjali college of pharmacy on April 7<sup>th</sup> 2021. Dr. P. Karthigeyan was the resource person. He gave a brief introduction on IPR and explained the various related terms such as copyrights, patents etc. The session was handled by Dr. R. Sivakumar (Faculty of chemistry Department, Geethanjali College of Pharmacy). A briefing on the session is given below.

### Introduction

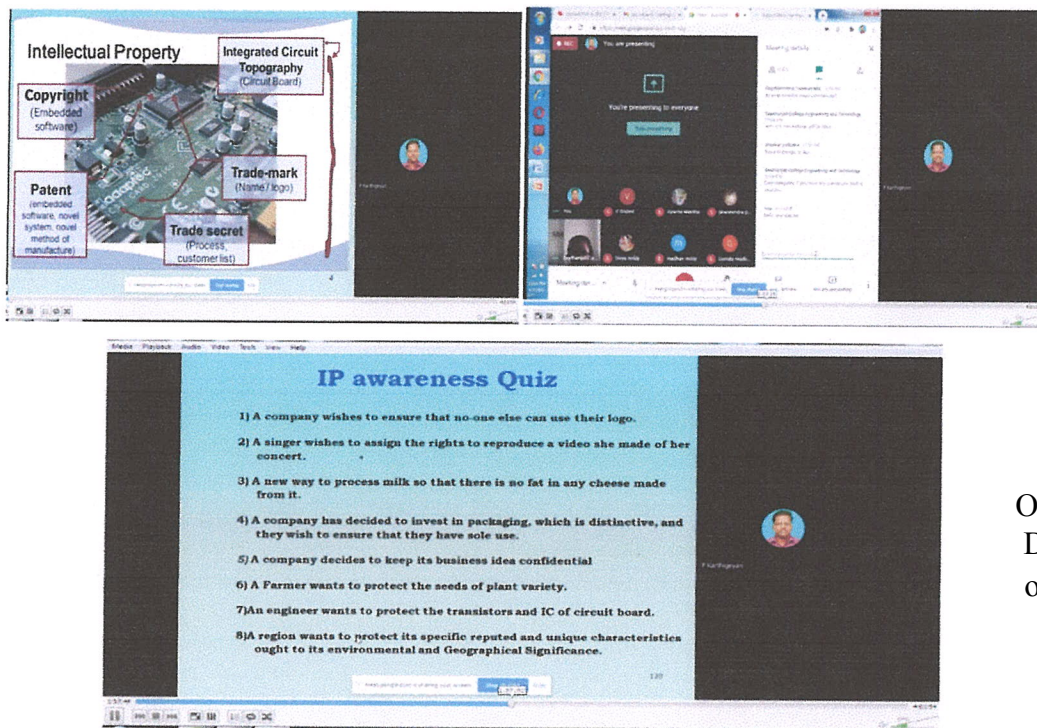

Intellectual property is a category of property that includes intangible creations of the human intellect, and primarily encompasses copyrights, patents, and trademarks. It also includes other types of rights, such as trade secrets, publicity rights, moral rights, and rights against unfair competition. Artistic works like music and literature, as well as some discoveries, inventions, words, phrases, symbols, and designs can all be protected as intellectual property.

The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. Intellectual property rights refer to the general term for the assignment of property rights through patents, copyrights and trademarks. These property rights allow the holder to exercise a monopoly on the use of the item for a specified period.

It created a great impact on the entire audience. Students were taught on how IPR restricts copying others' ideas and how this will help the development of new ideas for the

betterment of the society. Students learnt how IPR provides total control over a new innovation and its creator. They were also given a platform to discuss how small innovations influence societies at large and how they should indulge in innovating and patenting ideas that will be useful for all the classes of individuals in the society.

### REPORT ON RESEARCH METHADODOLOGY SEMINAR ON CPCSCA GUIDELINES

**Name of the programme:** Research Methodology Seminar on CPCSCA Guidelines

**Resource Person:** Prof. Dr. R. Nagakishore

M. Pharm., Ph. D,

Department of Pharmacology

A seminar on CPCSCA Guidelines was organized by Geethanjali college of pharmacy on 19/07/2021. Prof. Dr. M. Ravi Kumar was the resource person. He gave a brief introduction on Research methodology on CPCSCA Guidelines. The session was handled by Dr. R. Sivakumar (Faculty of chemistry Department, Geethanjali College of Pharmacy).

The seminar proved to be an insightful forum for discussion of Research Methodology on CPCSCA Guidelines. The CPCSEA brought the guidelines for laboratory animal facility in 2003 for animal facilities which are intended to assure quality maintenance and safety of animals used in laboratory studies while conducting biomedical and behavioral research and testing of products the goal of these guidelines is to promote the humane care of animals used in biomedical and research and testing with the basic objective.

### REPORT ON QUANTITATIVE AND QUALITATIVE RESEARCH

**Name of the programme:** Research Methodology on Quantitative and Qualitative Research

**Resource Person:** Dr. B. Rambabu

M. Pharm., Ph. D,

Department of Pharmacology

The seminar on “Research Methodology on Quantitative and Qualitative Research” conducted by Geethanjali College of Pharmacy, seminar scheduled on 23.01.2019. The location of the event is Geethanjali College of Pharmacy, Seminar Hall.

The main objective of the seminar is to keep informed the students; It is important to be able to identify and understand the research approach underlying any given study because the selection of a research approach influences the questions asked, the methods chosen, the statistical analyses used, the inferences made, and the ultimate goal of the research. Although some research may incorporate both quantitative and qualitative methodologies, in their ‘pure’ form there are significant differences in the assumptions underlying these approaches, as well as in the data collection and analysis procedures used.

M. Pharm., Ph. D

Department of Pharmacology

The seminar on "Ethical Guidelines for Biomedical Research on Human Participants" conducted by Geethanjali College of Pharmacy, seminar scheduled on 11.07.2017. The location of the event is Geethanjali College of Pharmacy.

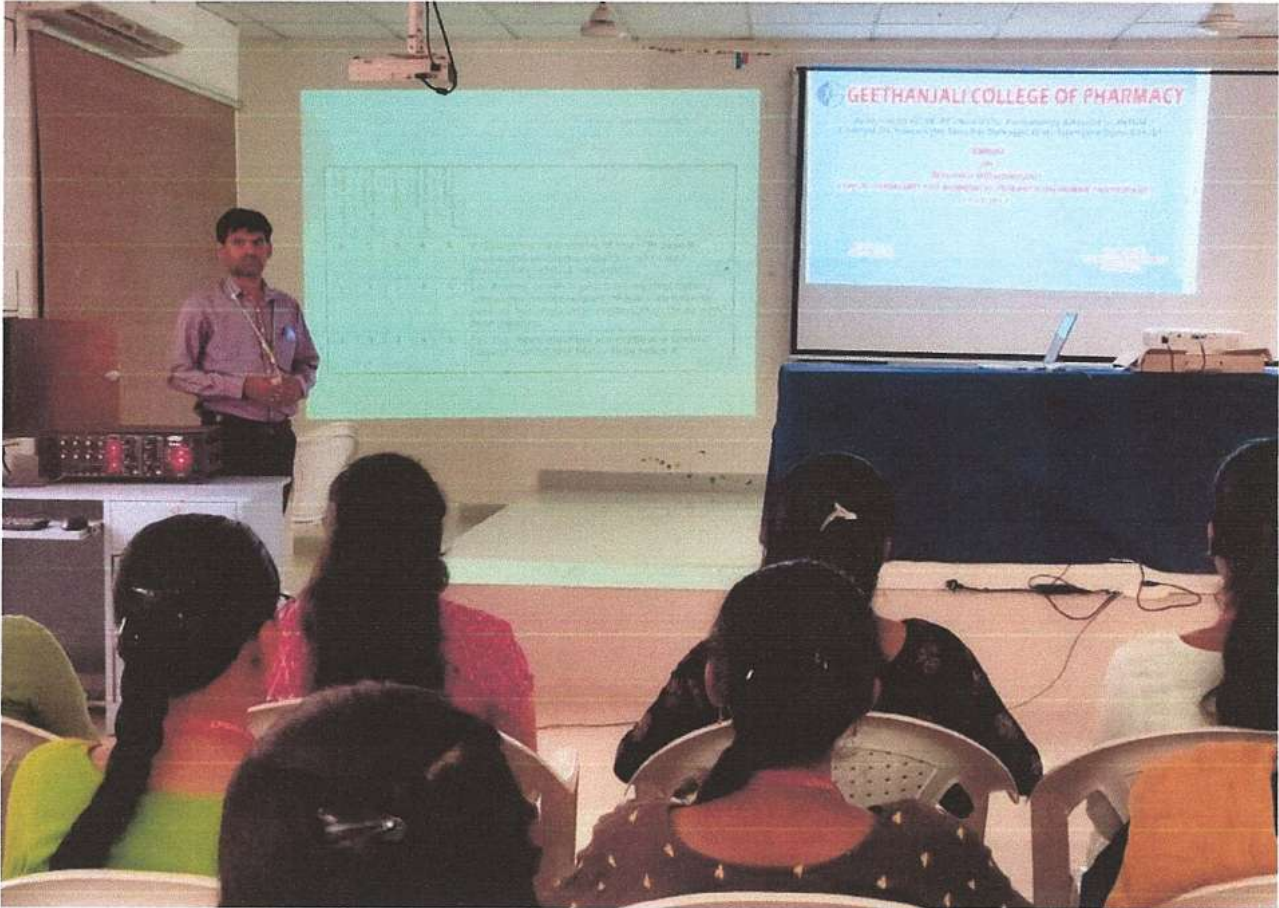

The main objective of the seminar is to keep informed the students; Biomedical Science and Technology and their application in the practice of medicine are provoking some anxiety among the public and society with new ethical problems. Society is expressing its concern about what it fears would be abuses in scientific investigation and biomedical technology. The new advances in science and medicine are a cause for celebration and jubilation, but at the same time, they need careful evaluation of risks against benefits and it raises some delicate and difficult issues of ethics. These need to be dealt with extreme sensitivity of human values with utmost care, and development of ethical guidelines for the clinical research.
